

AIRPORT AIR CARGO

Albany is centrally located in the Northeast United States. It is within 500 miles of more than half of the population of the United States and more than 60 percent of Canada's population, making it an ideal location to handle cargo.

The Airport's 53,000 square foot air cargo facility's apron was recently expanded to 11 acres. It is located in the Airport's Northeast quadrant on Kelly Road. U.S. Customs is on-site and on-call anytime. There is 2,300 cubic feet of cooler space available in the cargo building.

BELLY FREIGHT

Mobile Air Transport handles belly freight service for Delta Airlines, Northwest Airlines, Southwest Airlines, United Airlines and U.S. Airways. American Airlines and Continental Airlines handle belly freight directly and only accept small packages over the counter. To ship belly freight with any airline, a company must become a "known shipper" or an "Indirect Air Carrier." Any airline can assist a company to receive this designation.
