ALBANY COUNTY AIRPORT AUTHORITY

CASH MANAGEMENT AND INVESTMENT POLICY

I. SCOPE

This cash management and investment policy applies to all moneys and other financial resources held on its own behalf or on the behalf of any entity or individual and the investment of those moneys and resources.

II. OBJECTIVES

The primary objectives of the Authority's cash management and investment activities are, in priority order:

- To Conform with all applicable federal, state and other legal requirements (legal);
- To Adequately safeguard principal (safety);
- To provide sufficient liquidity to meet all operating requirements (liquidity); and
- To obtain a reasonable rate of return (yield).

III. DELEGATION OF AUTHORITY

The governing board's responsibility for administration of the cash management and investment program for the Authority is delegated to the Chief Financial Officer who shall establish written procedures for the operation of the cash management and investment program consistent with these guidelines. Such procedures shall include an adequate internal control structure to provide a satisfactory level of accountability based on a data base or records incorporating description and amount of receipts, disbursements, and investments, transaction dates, and other relevant information and regulate the activities of subordinate employees.

IV. PRUDENCE

All participants in the investment process shall seek to act responsibly as custodians of the public trust and shall avoid any transaction that might impair public confidence in the Authority to govern effectively.

Cash management and investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the safety of the principal as well as the probable income to be derived.

All participants involved in the cash management and investment process shall refrain from personal business activities that could conflict with proper execution of the investment program, or which could impair their ability to make impartial investment decisions.

V. DIVERSIFICATION REQUIREMENTS

In order to safeguard principal from imprudent risks, it is the policy of Authority, where possible, to diversify a portfolio among the investment instruments which it may legally and prudently hold and also among investment firms with which it transacts business. However, since the Authority is legally limited in the type of securities it may invest in, the opportunity to diversify among investments is very limited. The terms of each investment will be consistent with the Authority's cash liquidity requirements. The term of Repurchase Agreements will be for periods no longer than ninety days.

VI. INTERNAL CONTROLS

It is the policy of the Authority for all moneys collected by any officer or employee of the Authority to transfer those funds to the Chief Financial Officer within one day for deposit, or within the time period specified in law, whichever is shorter.

The Chief Financial Officer is responsible for establishing and maintaining an internal control structure to provide reasonable, but not absolute, assurance that deposits and investments are safeguarded against loss from unauthorized use or disposition, that transactions are executed in accordance with the Authority's authorization and recorded properly, and is managed in compliance with applicable laws and regulations.

VII. DESIGNATION OF DEPOSITARIES

Any bank or trust company with a full service office in the County of Albany is authorized for deposit of monies up to the maximum amount of \$35 million for operation funds and \$35 million for capital funds.

VIII. COLLATERALIZING OF DEPOSITS

In accordance with the provisions of Title 32 of the Public Authorities Law, Section 2788, all deposits of the Authority including certificate of deposits and special time deposits, in excess of the amount insured under the provisions of the Federal Deposit Insurance Act shall be secured by obligations with a market value equal at all times to the amount of the deposit. Obligations eligible for use as collateralization include those issued by the United States or issued by the State of New York or any municipality therein rated in one of the three highest rating categories by at least one nationally recognized statistical rating organization.

IX. SAFEKEEPING AND COLLATERALIZATION

Eligible securities used for collateralizing deposits shall be held by a third party bank or trust company subject to security and custodial agreements.

The security agreement shall provide that eligible securities are being pledged to secure Authority deposits together with agreed upon interest, if any, and any costs or expenses arising out of the collection of such deposits upon default. It shall also provide the conditions under which the securities may be sold, presented for payment, substituted or released and the events which will enable the Authority to exercise its right against the pledged securities. In the event the securities are not registered or inscribed in the name of the Authority, such securities shall be delivered in a form suitable for transfer or with an assignment in blank to the Authority or its custodial bank.

The custodial agreement shall provide that securities held by the bank or trust company, or agent of and custodian for, the Authority will be kept separate and apart from the general assets of the custodial bank or trust company and will not in any circumstances, be commingled with or become part of the backing for any other deposit or other liabilities. The agreement shall also describe that the custodian shall confirm the receipt, substitution or release of the securities. The agreement shall provide for the frequency of revaluation of eligible securities and for the substitution of securities when a change in the rating of a security may cause ineligibility. Such agreement shall include all provisions necessary to provide the Authority a perfected interest in the securities.

X. PERMITTED INVESTMENTS

Title 32 of the Public Authorities Law, Section 2788 authorized the Authority to invest in those obligations specified pursuant to the provisions of Section 98-a of the State Finance Law. In accordance therewith, the Authority authorized the Chief Financial Officer to invest moneys not required for immediate expenditure for terms not to exceed its projected cash flow needs in the investments designated in Appendix A to this policy.

All investment obligations shall be payable or redeemable at the option of the Authority within such times as the proceeds will be needed to meet expenditures for purposes for which the moneys were provided and, in the case of obligations purchased with the proceeds of bond or notes, shall be payable or redeemable at the option of the Authority within two years of the date of purchase.

XI. AUTHORIZED FINANCIAL INSTITUTIONS AND DEALERS

The Authority shall maintain a list of financial institutions and dealers approved for investment purposes and establish appropriate limits to the amount of investments which can be made with each financial institution or dealer. All financial institutions with which the Authority conducts business must be business worthy. Banks shall provide their most recent Consolidated Report of Condition (Call Report) at the request of the Authority. Security dealers not affiliated with a bank shall be required to be classified as reporting dealers affiliated with the New York Federal Reserve Bank, as primary dealers. The Chief Financial Officer is responsible for evaluating the financial position and maintaining a listing of proposed depositories, trading partners and custodians. Such list shall be evaluated at least annually.

XII. PURCHASE OF INVESTMENTS

The Chief Financial Officer is authorized to contract for the purchase of investments:

1. Directly, including by use of a repurchase agreement, from an authorized trading partner.
2. By utilizing an ongoing investment program with an authorized trading partner.

All purchased obligations, unless registered or inscribed in the name of the Authority shall be purchased through, delivered to and held in the custody of a bank or trust company. Such obligations shall be purchased, sold or presented for redemption or payment by such bank or trust company only in accordance with prior written authorization from the officer authorized to make the investment. All such transactions shall be confirmed in writing to the Authority by the bank or trust. However, written contracts are not practical, nor is it a regular business practice to enter such contracts for permitted investments other than Repurchase Agreements. Any obligation held in the custody of a bank or trust company shall be held pursuant to a written custodial agreement.

The custodial agreement shall provide that securities held by the bank or trust company, as agent of and custodian for, the Authority will be kept separate and apart from the general assets of the custodial bank or trust company and will not, in any circumstances, be commingled with or become part of the backing for any other deposits or other liabilities. The agreement shall describe how the custodian shall confirm the

receipt and release of the securities. Such agreement shall include all provisions necessary to provide the local government a perfected interest in the securities.

XIII. REPURCHASE AGREEMENTS

Repurchase agreements are authorized subject to the following restrictions:

1. All repurchase agreements must be entered into subject to a Master Repurchase Agreement;
2. Repurchase Agreements shall be for no more than 90 days and agreements which are “open” (continuing in nature) shall not be made;
3. Trading partners are limited to banks or trust companies authorized to do business in the State of New York and primary reporting dealers;
4. Obligations shall be limited to obligations of the United States and obligations of agencies of the United States where principal and interest are guaranteed by the United States;
5. The Authority or its custodian must take possession of the securities by physical delivery or book entry;
6. The custodian shall be a party other than the trading partner and shall be a member of the Federal Reserve Bank or maintain accounts with member banks to accomplish book-entry transfer of securities to the credit of the Authority.

The Master Repurchase Agreements must include:

1. The events of default which would permit the purchaser to liquidate the pledged collateral;
2. The relationship between parties to the agreement, which shall ordinarily be purchaser and seller;
3. Procedures which ensure that the Authority obtains a perfected security interest in the securities which are the subject of the agreement;
4. The method of computing margin maintenance requirements and providing for timely correction of margin deficiencies or excesses. Specific guidelines regarding margin maintenance shall be established, taking into consideration:
 - a. the type of collateral or purchased security;
 - b. the maturity of the collateral or purchased security;
 - c. the method by which additional margin will be maintained; and
5. Circumstances, if any, under which substitution of securities (collateral) subject to the agreement shall be permitted.

XIV. REQUIRED REPORTS

Internal Management Reporting

In accordance with Section 2925(5) of the Public Authorities, the Chief Financial Officer shall cause to be prepared and filed with the Authority's board of directors a quarterly report on any new investments, the inventory of existing investments and the selection of investment bankers, brokers, agents, dealers, or auditors.

The audit of investments shall be designed, to the extent practical, to satisfy both the common interests of the Authority and the public officials accountable to others.

A written audit report shall be prepared presenting the results of the annual independent audit of all investments and shall include:

- 1 a description of the scope and objectives of the audit;

- 2 a statement attesting that the audit was conducted in accordance with generally accepted government auditing standards;
- 3 a description of any material weaknesses found in the internal controls;
