

## **Albany International Airport Environmental Policy Statement**

*Albany International Airport* is committed to environmental responsibility and limiting the impacts that its business operations has on the environment while maintaining quality services to our customers. We will employ the use of an environmental management system that will track compliance with legal requirements, train personnel on their roles in protecting the environment, maintain processes that prevent pollution, and seek continual improvement in sustainability. This policy will be reviewed periodically, at least annually. Our commitment and responsibility to the environment extends to every aspect of our business, including our suppliers, staff, customers, and the community in which we operate. To these ends, we have established the following objectives:

- *Comply with all applicable environmental laws and regulations;*
- *Establish a baseline carbon footprint and measure future emissions with the intention of reducing them over time;*
- *Make recycling receptacles available in employee and customer areas;*
- *Implement paperless systems where feasible;*
- *Migrate over time to using energy efficient appliances and lighting (e.g., LEDs);*
- *Offer filtered water fill station or water fountain to reduce plastic bottle usage;*
- *Communicate our environmental commitment and efforts to our customers, partners, and community;*
- *Train all of our staff on our Environmental Policy Statement and continually empower them to participate in our environmental improvement efforts;*
- *Implement energy and water efficiency programs where economically and operationally feasible*
- *Minimize waste by reviewing purchasing practices and segregating wastes for reuse and recycling*
- *Use sustainable fuel;*
- *Utilize electric ground support equipment (GSE);*
- *Participate in carbon offset programs;*
- *Encourage sustainable business practices in suppliers;*
- *Offer transparency in which goals and levels we choose to pursue each year;*
- *Incentivizing the use of public transportation; and,*
- *Purchasing locally-sourced food and goods where feasible.*
