

Minutes of the Regular Meeting of the Albany County Airport Authority

**ACAA Approved
12/05/2022**

November 7, 2022

Pursuant to notice duly given and posted, the regular meeting of the Albany County Airport Authority was called to order on Monday November 7, 2022 @ 11:30 a.m. in the 3rd Floor Conference Room of the main terminal located at the Albany International Airport by Chairman Samuel A. Fresina with the following present:

MEMBERS PRESENT

Samuel A. Fresina
Lyon M. Greenberg, M.D.
Sari M. O'Connor
John-Raphael Pichardo
Steven H. Heider

MEMBERS ABSENT

Thomas A. Nardacci
Kevin R. Hicks, Sr.

STAFF

Philip F. Calderone, Esq.
Christine C. Quinn
Matt Cannon
Liz Charland
Steve Iachetta
Michael F. Zonsius
Doug Myers
Helen Chadderdon
John LaClair
Margaret Herrmann
Bobbi Matthews

ATTENDEES

Ray Casey, Airport Consultant
Arturo Garcia, Chief Operating Officer, AvPorts
Fire Chief Dave Cook, AvPorts - ARFF
Jim O'Brien, AvPorts Operations Manager
Kevin Hehir, AvPorts Building Maintenance Manager
Jeffrey Jamison, Chief Counsel to the Albany County Executive
George Penn, Director of Operations Albany County
Brian King, Million Air Manager
Rich Amadon CHA
Jeremy Martelle, CHA
Perry Blanchard, AvPorts
Katherine Mahoney, AvPorts
Dave Dague, Arthur Little Co.
Janet Thayer, Esq.

Chair Fresina noted that there was a quorum.

General:

1. Chairman's Remarks

Chair Fresina requested a moment of silence for former ACAA Board Chair Rev. Kenneth J. Doyle who passed away October 28.

2. Approval of Minutes

Ms. O'Connor moved to approve the minutes of the October 17, 2022 meeting. The motion was adopted unanimously.

Management Reports:

3. Communications and Report of Chief Executive Officer

Mr. Calderone presented the Communications and Report of the Chief Executive Officer for the month of November 2022.

4. Chief Financial Officer

- 5.1 Statistical and Financial Performance**
- 5.2 Comparison of Enplanements**
- 5.3 Summary of Airline Scheduled Flights and Markets**
- 5.4 USDOT Arrival and Departure Statistics**

Mr. Zonsius presented the Financial Report for the month of November 2022.

5. Project Development

Mr. LaClair presented the Project Development report for the month of November 2022.

6. Counsel.

7. Concessions/Ambassador Program

Ms. Chadderdon presented the Concessions/Ambassador report for the month of November 2022.

8. Public Affairs

Mr. Myers presented the Public Affairs report for the month of November 2022.

9. Business & Economic Development

Mr. Cannon introduced David Dague, Principal Arthur D. Little

Mr. Dague presented an air service update.

Action Items:

10. Authorization of Contracts/Leases/Contract Negotiations/Contract Amendments

10.1 Purchase: One (1) 1500 Gallon GSE (Ground Service Equipment) Refueler

Mr. Zonsius recommended authorization to approve the purchase of One (1) 1500 Gallon GSE (Ground Service Equipment) Refueler to replace the current GSE Refueler, F-24, purchased in October 2005. He advised this vehicle is used to refuel all of the ground service equipment, including belt loaders, baggage carts, ground power units, pushback tractors, deice trucks, heaters, a/c carts and fuel trucks. Million Air will use this truck daily to keep the airport's fleet moving. This purchase will be 100% Airport funded.

Ms. O'Connor moved to approve the purchase of One (1) 1500 Gallon GSE (Ground Service Equipment) Refueler in the amount of \$240,550. The motion was adopted unanimously.

11. Authorization of Change Orders - None

12. Authorization of Federal and State Grants - None

13. Adoption of Budget 2023 in the amount of \$228,684,996 (includes \$164,353,548 of Contributed Capital) and authorization to transfer \$110,552 from the Authority to the Albany County Airport Authority OPEB Trust.

Mr. Zonsius advised the Finance Committee met on October 17, 2022 and the committee recommends Adoption of the 2023 Airport Operating Budget in the amount of \$228,684,996 (includes \$164,353,548 of Contributed Capital) and also recommends authorization to transfer \$110,552 from the Authority to the Albany County Airport Authority OPEB Trust.

Ms. O'Connor moved to adopt the 2023 Airport Operating Budget in the amount of \$228,684,996 (includes \$164,353,548 of Contributed Capital) with inclusion of adjustments of the Million Air Budget and also recommends authorization to transfer \$110,552 from the Authority to the Albany County Airport Authority OPEB Trust. The motion was adopted unanimously.

Old Business: None

New Business: None

Executive Session - Attorney-Client Privilege Matters

Ms. O'Connor made a motion to go into executive session to discuss:

ES-1 – Appointment of a particular corporation.

The motion was adopted unanimously.

There being no further business, the meeting was adjourned at 1:45 p.m.

- 8. Public Affairs**

Mr. Myers presented the Public Affairs report for the month of October 2022.

- 9. Business & Economic Development**

Action Items:

10. Authorization of Contracts/Leases/Contract Negotiations/Contract Amendments

10.1 Amendment No. 1 to 2020-2024 Capital Plan

Ms. Quinn recommended authorization to approve amendments to the Authority Five-Year Capital Program for 2020-2024. She advised the proposed amendment would increase the amounts for potential expenditure (and potential borrowing) for Pre TSA Expansion and several other projects as outlined in the amendment. An increase in the amounts in the Capital Program is not an authorization to make the expenditure and any such expenditure would be subject to future Board approval. The enabling legislation of the Authority provides that no capital project shall be undertaken by the Authority unless it shall first have been approved by the county legislature as part of a five-year capital program plan. Application has been made to the Albany County Legislature to approve the capital program amendments.

Ms. O'Connor moved to approve the amendments to the Authority Five-Year Capital Program for 2020-2024 for Pre TSA Expansion and several other projects as outlined in the amendment and the increase in the amounts in the Capital Program is not an authorization to make the expenditure and any such expenditure would be subject to future Board approval. The motion was adopted unanimously.

10.2 Negotiate - NTE - Contract No. S-22-1129 Construction Manager for Terminal Expansion

Ms. O'Connor made a motion to table Item 10.2 - Negotiate – NTE – Contract No. S-22-1129 Construction Manager for Terminal Expansion. The motion was adopted unanimously.

Note this item was approved to negotiate after an executive session later in this meeting. See approval at the end of the minutes.

10.3 Professional Service Agreement: Contract No. - S-21-1082 - Terminal Pre-TSA Expansion with CHA CONSULTING, INC.

Mr. Quinn recommended authorization to approve Professional Services Contract S-21-1082 Design Services for the proposed Terminal Pre-TSA Expansion in the amount of \$8,118,078.00 to CHA Companies. She advised that at the July 12, 2021 ACAA Board meeting the Board approved negotiations with CHA Companies.

Mr. Heider moved to approve Professional Services Contract S-21-1082 Design Services for the proposed Terminal Pre-TSA Expansion in the amount of \$8,118,078.00 to CHA Companies. The motion was adopted unanimously.

10.4 Intentionally Omitted

10.5 Operating Permit with Unifi - Permit No. 22-1134

Ms. Quinn recommended authorization to approve an Operating Permit with Unifi Aviation, LLC to provide Aircraft Cleaning and Ground Handling Services to United Airlines, Inc. She advised Unifi Aviation, LLC has contracted with United Airlines, Inc. (United), to provide aircraft cleaning and ground handling services to United at Albany International Airport. Unifi Aviation, LLC will provide services in spaces exclusively used and leased by United. The operating permit will expire on December 31, 2024. The agreement may also be extended beginning the first day of January 2025. The permit requires payment to the Authority of five (5) percent of all Unifi Aviation's gross revenue generated from United at the Airport along with other appropriate terms and conditions that include but are not limited to insurance, indemnification, contract assignment, and reporting obligations under the Agreement.

Mr. Heider moved to approve the Operating Permit with Unifi Aviation, LLC to provide Aircraft Cleaning and Ground Handling Services to United Airlines, Inc. The motion was adopted unanimously.

11. Authorization of Change Orders

11.1 Change Order No. 2 Contract No. 20-1075-FP; Hewitt Young; Fire Alarm Replacement

Mr. LaClair recommended authorization to approve Change Order #2 for Contract S-20-1075-FP for Terminal Fire Alarm Replacement to Hewitt & Young Electric in the amount of \$129,235.00 (PFC funded). He advised the additional items of work include supplying and installing new modules where existing modules for the existing deluge system were not compatible to maintain the fire protection system currently in place with the new system. Additionally the contractor has requested an extension of the contract time to November 18, 2022. The additional onsite investigation work of the existing smoke hatches, deluge system and smoke ventilation system reduced the contractor's production. The cost escalation for the electrician's hourly rate increased on June 1, 2022. This change order will be 100% Airport Funded from CPN 2002.

Ms. O'Connor moved to approve Change Order #2 for Contract S-20-1075-FP for Terminal Fire Alarm Replacement to Hewitt & Young Electric in the amount of \$129,235.00 (PFC funded). The motion was adopted unanimously.

12. Authorization of Federal and State Grants - None

**ADD-ON 13. Appointment of Special Committee - Capital Improvement Committee (CIC)
Adoption of the Capital Improvements Committee Charter**

Ms. O'Connor requested authorization to approve the creation of the Capital Improvement Committee and also requested approval of the proposed Capital Improvement Committee Charter. She advised that pursuant to the By-Laws of the ACAA, the Chair of the Authority may, from time to time, with the approval of the Authority, appoint special committees to further the purposes, powers, and approved actions of the Authority.

Mr. Pichardo moved to approve the creation of the Capital Improvement Committee and approve the proposed Capital Improvement Committee Charter. The motion was adopted unanimously.

Old Business: None

New Business: None

Executive Session - Attorney-Client Privilege Matters

Ms. O'Connor made a motion to go into executive session to discuss:

ES-1 – Negotiations of a contract.

The motion was adopted unanimously.

Ms. O'Connor made a motion to go out of executive session and back into regular session. The motion was adopted unanimously.

**10.2 NEGOTIATIONS - Professional Services Contract: Contract No. S-22-1129
Construction Management Services with Turner Construction Company.**

Ms. Quinn requested authorization to negotiate Professional Services Contract S-22-1129 Construction Management Services for the execution of the NYSDOT Grant. She advised the RFQ evaluation committee met and discussed each proposal. Each committee member completed the evaluation score sheet with the criteria outlined in the RFQ document. The committee voted to recommend the selection of Turner Construction Company as the Construction Manager for the Terminal Pre TSA Expansion. Staff will negotiate a Scope of Work and fee schedule to be billed on a time card basis, for a fee not to exceed \$3,500,000.00. The Construction Manager shall be the Authority representative on the project, coordinate master schedules, evaluate adverse conditions, coordinate and expedite the design professionals in designing the project, review design and construction documents, prepare estimates, maintain project budget control, monitor

and coordinate the construction phase, review payment applications of contractors, review and process change orders and process and coordinate close-out.

Ms. Quinn further noted this item had been tabled earlier in this meeting.

Mr. Hicks moved to approve negotiations for Professional Services Contract S-22-1129 Construction Management Services for the execution of the NYSDOT Grant for a fee to be billed on a time card basis and not to exceed \$3,500,000.00. The motion was adopted unanimously.

There being no further business, the meeting was adjourned at 1:45 p.m.

INTRODUCTION

Enplanement, Cargo and Operations continue to trend positively from the prior year, as shown below:

	2022 Current Year versus			
	2022 Month Budget	2021 Month Actual	2021 YTD	2021 Prev. 12 Mo.
Enplanements	10.2%	10.6%	31.4%	21.8%
Cargo	(10.4)	(2.3)	(11.7)	(9.5)
Operations	10.8	1.6	13.6	16.0

	Month	
	Jun21	May22
Destination Airports	14	15
Scheduled Monthly Flight	991	1,274
Average Daily Flights	33.0	42.5
Pax Lift (Pax Seats)	97,420	139,005
Enplanements	88,614	113,139

FINANCIAL INFORMATION

Cash Position – Unrestricted (Operating)

The Airport continues to maintain a strong cash position. The Statements of Net Position provided on Page 4 reports unrestricted cash of \$27,251,972 and equates to approximately 10.03 months of operating reserves (Notes to Financial Statements #2, Page 8), this is a nominal change from the prior month.

Cash Position – Restricted

Restricted cash available for capital purposes is as follows:

Projects	\$ 7,444,576
Projects – PFC	9,393,414
Projects – Other	1,357,196
	<u>\$18,195,186</u>

Accounts Receivable

The Accounts Receivable balance is approximately 2.86 of average day total operating revenues.

Equity – YTD Earnings

The Summary of Revenues, Expenses and Net results is provided on Page 5. The Airport recorded a change in net position for the month and year-to-date shown as follows:

	Month	YTD
Airport Operating	\$ 1,058,693	\$10,466,808
FBO Profit	141,865	2,068,551
	1,200,558	12,535,359
Other Rev/Exp (d.ser.)	(435,264)	(4,231,535)
Capital Contributions	498,108	819,263
Airline Incnt. Payts.	(27,142)	(190,433)
	35,702	(3,602,705)
	<u>\$1,236,260</u>	<u>\$8,932,654*</u>

*Please note, depreciation is not recorded on the monthly financial statements.

Operating Revenues

Monthly operating revenues increased \$601,650 from the same month the prior year. YTD operating revenues increased \$9,125,403 over the same time period the prior year.

Airport Operating Expenses

Monthly operating expenses were approximately \$2,699K and \$2,217K for 2022 and 2021, respectively. YTD operating expenses were \$22,859K and \$18,742K for 2022 and 2021, respectively.

AIRPORT OPERATING BUDGET

Monthly airport operating revenues were favorable by approximately **\$601,650K**, due in large part to the increase in parking and rental car revenue. Monthly airport operating expenses compared to budget were favorable by approximately **\$5K**.

YTD airport operating revenues were favorable by approximately **\$6,600K**. YTD airport operating expense were favorable by approximately **\$931K**.

Please see Budget vs. Actual High/Low by Category Reports, pages 10 – 12, for further details. High/Low by Category Report may not reconcile with the Summary of Revenues, Expenses and Net Results as some accounts need to be reflected in former.

MILLION AIR FBO OPERATIONS

Revenues derived from the sale of JetA and AvGas fuels is the largest contributor of FBO revenue. Below are the fuel sold in gallons for both JetA and AvGas:

	2022 Current Year versus			
	2022 Budget	2021 Month	2021 YTD	2021 Prev. 12 Mo.
JetA (gals)	23.9	(6.7%)	6.2%	13.0%
AvGas (gals)	90.7	44.4	26.3	19.1

FBO Summary of Revenues, Expenses and Net results are shown on Page 7.

The FBO had operating profits of \$141,865 and \$2,069, for the month and year-to-date, respectively, both favorable as compared to the budget.

Monthly FBO operating revenues were favorable to budget by approximately **\$116K**, due in large part to JetA fuel sales. Monthly FBO COGS (cost of goods sold-fuel) compared to budget were favorable by approximately **\$18K**. Monthly FBO operating expenses compared to budget were unfavorable by approximately **\$73K**.

YTD FBO operating revenues were favorable by approximately **\$2,019K**, due in large part to JetA fuel sales. YTD FBO COGS (cost of goods sold-fuel) compared to budget were unfavorable by approximately **\$283K**. YTD FBO operating expenses compared to budget were unfavorable by approximately **\$449K**.

Notes to Financial Statements

1. Accounting Basis

This financial information is presented for the purposes of comparing budget to actual results and for indicating generally how revenues and expenses have compared to budgeted revenues and expenses through on a monthly basis. The financial information presented herewith is prepared on the Albany County Airport Authority's budgetary basis of accounting.

This report includes preliminary operating and performance statistics, and financial forecasts based upon the budgetary basis of accounting estimates that involve uncertainties that could result in actual financial results differing materially from preliminary estimates.

2. Cash Reserves

2022 Operating Budget - Airport	\$32,120,020

AGENDA ITEM NO. 5

Project Development

PROJECT STATUS REPORT

November 7, 2022

I. AIRSIDE IMPROVEMENTS

A) Rehabilitation of Concourse A (Contract S-22-1127)

An RFQ was advertised in August and out of the five submittals, Fennick McCredie Architecture was selected. FM submitted a scope and fee which is currently under ACAA review.

B) Air Cargo Pavement Rehabilitation

Passero Associates were approved by the Board in May 2022. Passero is in the process of investigating of the concrete pavement failure on the south end of the Air Cargo apron (leased by UPS) and then they will supply a design for the repair and replacement of the pavement. Passero has been working with ACAA to determine the extent of the investigation and compile a proposal to complete the work. Passero's is awaiting lab results from the samples of concrete and the subsurface soils.

C) Runway 10-28 Rehabilitation (Contract #S-21-1100)

Callanan Industries was the low bidder and their contract was approved at the May Board meeting. Collier Engineering is the inspection firm. Callanan Ind. mobilized in early August to get the existing centerline lights removed. Runway 10-28 was shutdown for 7days in September that Callanan used to mill, pave and stripe the Runway. The runway grooving is currently in progress and then Callanan will shutdown for the Winter and return in the Spring of 2023 to complete the Taxiway work in accordance with the FAA funding.

II. LANDSIDE IMPROVEMENTS

A) Air Traffic Control Tower (Contract 1013-R & M)

The FAA as part of the lease renewal, requested some upgrades to their facility. The roof replacement project (1013-R) the roof project will be bid in 2023 when materials are more readily available. The elevator replacement project (1013-EV) was awarded to Kone under NYS Contract pricing. Sage Engineering is in the process of completing the design for the HVAC system upgrade, which will be let as a project next year.

B) Main Terminal Fire Alarm Replacement (Contract 20-1075-FP)

Hewitt & Young Electric was awarded the contract and is continuing the installation of the new Terminal Fire alarm system. The contractor are currently installing sensors and panels throughout the Terminal. Installation of the alarm system continues with the contractor working two shifts. All installation work and testing of the new system continues as the contractor works to tie in existing Terminal systems as required by NYS Code. There is an action item for this project on today's Board agenda.

C) Terminal Pre-TSA Expansion (Contract S-21-1082)

The Board approved negotiations with CHA Companies last fall pending the receipt of Grant funding for the Project. ACAA received grant funding from New York State and the FAA to advance this project. ACAA has negotiated the design scope and fee with CHA Companies. CHA's design team

D) Main Terminal Elevator #8 Replacement

Elevator #8 in the Terminal, which was the main public use elevator to and from the TSA checkpoint is experiencing a very high volume of passengers while Elevator #6 was Out-Of-Service. Kone has provided the Airport a proposal to eliminate the piston system and convert the elevator to an MRL cable system under State Contract pricing once Elevator #6 is back in service. The equipment was delivered on November 1, 2022. Work will begin after January 1, 2023 to maintain two working elevators for the holidays.

E) HVCC Aircraft Technician School Sprinkler System (Contract#S-22-1109FP)

HVCC and ACAA are working together to get the Aircraft Mechanic classrooms and lab set up in 6 Jetway Drive and Hangar #1. HVCC is currently getting their work spaces prepped for classes to begin. The HVCC sprinkler system has been connected to the lab and the hangar. Absolute Fire Protection completed installing the dry sprinkler system in the hangar and the alarm system in the 6 Jetway Drive classrooms. The system is currently being tested for code compliance, before activating the system.

F) Runway 10-28 Obstruction Tree Removal (22-1131-GC)

As part of the Airport's efforts to maintain FAA mandated minimum approaches to the runways, there are a number of trees that have been determined to be obstructions to the Runway 28 approach. The ACAA has put together a bid package to have the trees removed. Bids for this project were received on October 18, 2022 and A & J Lawncare was the low bidder. The contractor is in the process of getting the contracts signed. The contractor plans to start removal on November 14, 2022 and be done within 10 days.

AGENDA ITEM NO. 8

Public Affairs

Public Affairs Report November 2022

Father Doyle

Public Affairs responded to the unfortunate passing of former Authority Chairman Father Ken Doyle with a joint statement from both Chairman Sam Fresina and CEO Phil Calderone.

Terminal Expansion

The Times Union dedicated considerable space to the recent Albany County Legislature's Mass Transit committee meeting during which CEO Phil Calderone presented the Airport planned terminal expansion plan.

NYS DMV REAL ID

The New York State Department of Motor Vehicles has postponed a planned Airport & TSA news conference to remind travelers of the need to obtain a REAL ID by the May 3, 2023 deadline. DMV plans multiple news conferences at other airports throughout New York during next few months and will reschedule the Albany event early in 2023.

The Industry Faces an Unprecedented Complexity of Trends

The Covid-19 Pandemic

After over two years of living with Covid-19, we are learning to adapt to a world with this disease. In the first two years of the pandemic, nearly 15 million more people died globally than would have been expected during normal times, and over one million Americans have died.

The Look Ahead, as Described by Major Airlines from Recent Earnings Conference Calls

Southwest

"We plan to allocate the vast majority of new 2023 capacity to network restoration and stronghold Southwest markets, which we consider to be lower-risk growth. Fleet utilization is expected to be limited by pilot staffing constraints for the majority of 2023, resulting in continued cost headwinds due to operating at suboptimal productivity levels until we are able to optimize staffing with our fleet—which is foundational to our plan to improve operating leverage."

DELTA

"Demand has not come close to being quenched by a hectic summer travel season. At the same time, industry supply is constrained by aircraft availability, regional pilot shortages, and hiring and training needs. With record high fuel prices and increasing cost of capital, the hurdle rate is rising for incremental capacity across an industry that's still restoring its financial condition post pandemic."

UNITED

"We recognize that the near-term geopolitical and macroeconomic growth and overall pessimism facing the global economy, including airlines are unusually high right now. However, a strong demand environment exists against the supply backdrop. Pilot shortages, aircraft delivery shortages from both Boeing and Airbus, air traffic control saturation and airport infrastructure constraints around the world are all real and they are constraints that will take years to fully resolve."

American Airlines

"We have made the decision to greatly simplify our fleet and network focusing on our flying on where we can create outsized customer value and working with our partners to create choices and value in areas where it's cost prohibitive to do so ourselves. This means prioritizing the flying that can best generate a return today, not bringing back flying it was only marginally profitable before the pandemic or that we had hoped it would one day generate a return."

jetBlue

Looking ahead, we expect the aviation ecosystem to continue to remain fragile, given supply chain challenges and ATC staffing headwinds. Therefore, we are maintaining a continued bias towards more conservative planning assumptions in the medium term, such as carrying higher levels of reserves versus 2019 to ensure that we are set up for operational success."

spirit

"Our network team has plenty of other growth opportunities. A growing service in our home hometown state of Florida is key to our return to normalized operating margins. We are also facing high rates of labor inflation. Increasing productivity will help mitigate this, which is in part tied to the pace at which we can hire and train pilots. Attrition rates remain elevated, which means we've had to build a bigger schoolhouse and increased resources to train the number of pilots needed to support our growth and to cover the higher attrition. Additionally, attracting new pilot talent has been more challenging as regional airlines and major airlines have announced new pay structures."

Capacity Growth is Limited by Aircraft and Pilot Availability, Exacerbated by a General Ecosystem Labor Shortage

PILOT SHORTAGE

The pilot shortage does not affect the industry evenly, though a global pressure trend, will continue to **impact the ability to implement demand-driven airline networks and requires network redesign.** Will affect airport traffic levels, flow and infrastructure needs.

Other **skilled labor shortages** in the industry also need to be addressed, notably mechanics.

AIRCRAFT DELIVERY DELAYS

Aircraft production issues will continue to impact schedule size, network design, and schedule resilience. Global supply and staffing issues have been exacerbated by aggressive demand forecasts by airframe manufacturers.

ECOSYSTEM LABOR SHORTAGE

'The Great Reshuffle' is both a short- and long-term trend. Immediately expressed as a labor shortage trend, longer term it is the cause factor for enhanced adaptation of automation and smart tech to improve resilience.

In Summary, the Industry Continues to Evolve, Tailwinds and Headwinds Exist

Tailwinds

- Fare Environment Remains Strong
- Ancillary Revenue is Robust
- Segments of Business and Corporate Travel Returning
- International Markets Restrictions Easing

Headwinds

- Labor Shortages
- Regional Jet Pilot Shortage
- Increasing Airline Costs
- Inflation, Slowing Economy, Recession?
- Hurricane Ian Impacts on Florida
- Boeing, Airbus Supply Chain Issues

PURPOSE OF REQUEST:

Purchase: One (1) 1500 Gallon GSE (Ground Service Equipment) Refueler

Westmor Fluid Solutions, LLC
14044 W. Freeway Dr.
Columbus, MN 55038

AMOUNT:

\$240,550.00

BUDGET INFORMATION:

Anticipated in Current Budget: Yes: \checkmark (\$225,000)
Account String: 2022 00350-70

FISCAL IMPACT - FUNDING (Dollars or Percentages)

Federal: NA State: NA Airport: 100%

JUSTIFICATION:

Request is made to approve the purchase of One (1) 1500 Gallon GSE (Ground Service Equipment) Refueler. This unit will replace the current GSE Refueler, F-24, purchased in October 2005.

This vehicle is used to refuel all of the ground service equipment, including belt loaders, baggage carts, ground power units, pushback tractors, deice trucks, heaters, a/c carts and fuel trucks. Million Air uses this truck daily to keep the airport's fleet moving. This truck was out of service multiple times this year due to electrical and hydraulic issues and parts for the truck are not readily available.

From: Bobbi Matthews
Purchasing Agent

DATE: November 3, 2022

RE: Request to Purchase one (1) 1500 Gallon Dual Compartment GSE Refueler

Request for Proposals were released on May 12, 2022, for the lease of Aviation Fuel Trucks for use by Million Air (Contract # LFV-22-1115). On June 16, 2022, two proposals were received and acknowledged from Rampmaster and Skymark. The Airport Authority Board approved award to Rampmaster on July 11, 2022 for said Aviation Fuel Trucks.

Contract # LFV-22-1115 included an option to lease (not purchase) of one 1,400 - 1,500 gallon Split Diesel/Gas Refueler. No proposals were received for this vehicle.

Million Air manager, Brian King, requested and received a quote (attached) to purchase of one (1) 1500 Gallon Dual Compartment GSE refueler from Westmor Fluid Solutions per our specifications.

Upon approval a Purchase Order will be sent to Westmor Fluid Solutions, LLC.

OPTION 2:

VEHICLE TYPE 4

Lease of:

One (1) 1,400 – 1,500 gallon split diesel/gas refueler

Chassis:	Isuzu with Diesel Engine or Equal and Automatic Transmission
Standard Flow System:	Duel (2) 30 GPM Flow Systems (1 for Gasoline and 1 for Diesel)
Standard Configuration:	(2) Isolated Systems, (2) Dispensing Reels, (2) Flow Meters, (2) Canister Filters, mounted on rear equipment deck
Discharge Lines:	3" aluminum sumps in bottom of compartments
Flashing Drains:	Two external 1 ½" O.D. drains at front of tank
Calibration:	Marker Rod installed in each compartment and set to rated capacity
Manholes:	20" Manholes with 10" Fills
Tank Gauges:	Tank equipped with tank level system with digital display at main control panel
Ladder:	One ladder with small platform installed in rear of tank. Ladder to be installed on the center rear.
Product Pumps:	2" product pumps with relief valves and strainer
Fueling Platform:	Open pumping equipment platform installed off of drivers side frame to mount all pumping equipment for diesel and gasoline.
Delivery Hose:	Two ¾" x 100' fueling hose
Hose Reel:	Two electric rewind hose reels with explosion proof motors.
Metering:	(2) Liquid Controls 800 GPM meter, LCR 600 with Wireless modem, Large digital desk readout
Shutdowns:	Two emergency shutdowns. One driver side front and one passenger side rear of tank.
Fire Extinguisher:	Two U.L rated 20-B dry chemical with mounting brackets.
Ticket Printer:	In-cab, Roll paper type
DEF Fluid Saddle Tank with Dispenser	
Back Up Camera	
Scully System with Secondary Shutoff	
Air Conditioning	
Aluminum Storage Box	
Chock Holder	

Westmor Fluid Solutions, LLC

October 12, 2022

Brian King
Million Air Albany
16 Jetway Drive
Albany, NY 12111

Reference: 1500 Gallon GSE Refueler
Quote #: 220809-47241a

Brian,

Thank you for the opportunity to present this proposal and I look forward to working with you. Please review the attached quotation and feel free to contact me with any questions.

The Equipment

Description	Quantity	Unit Price	Extended Price
Brand new 1500 Gallon dual compartment GSE Refueler on an Isuzu NQR chassis with a gas engine with dual 20 gpm pumping systems, LC IQ electronic meter registers and Fleet Connect and a DEF dispensing system. Note; this does not include in-service.	1	\$ 239,650	\$ 239,650
Option: Backup camera system	1	\$ 1,000	\$ 1,000
Total	1	\$ 240,550	\$ 240,550

Payment Terms: Domestic sales in excess of \$10,000 require a 25% down payment with the purchase order or payment for the chassis when received at Westmor, balance due upon completion of order (required to ship). Payment terms must be on the PO.

Taxes: Applicable taxes are not included in this quotation. Domestically, we are registered to collect sales tax for the states of Minnesota, Iowa, Wisconsin, Kansas, North Dakota, Illinois and South Dakota, unless an exemption form is provided.

Warranty: Equipment is under warranty for 12 months starting either 1) when the product is ready to ship or 2) after optional on-site startup by Westmor, given start up occurs within six months after equipment is ready to ship.

Westmor Fluid Solutions, LLC

- Acceptance:** The equipment will be manufactured and ready for delivery on a date that is mutually agreeable to both parties. Westmor will present the final invoice upon completion of equipment. Westmor may agree to hold the equipment beyond the agreed upon completion date subject to payment.
- Delivery:** Due to supply chain issues, we will confirm the delivery at time of order.
- Shipping:** All units are quoted exWorks Columbus, MN. Please let us know if you would like us to provide a freight quotation.
- Validity of Offer:** 30 calendar days from date of quotation.

TERMS AND CONDITIONS

1. OFFER AND ACCEPTANCE. Westmor Fluid Solutions, LLC ("Seller") acceptance of Buyer's order to purchase products (the term products includes any services being provided by Seller) described in the proposal to which these Terms and Conditions are made a part of ("Proposal") is expressly made conditional on assent to these Terms and Conditions, which constitute a binding "Contract" between the parties. This Contract constitutes the complete and final agreement between Seller and Buyer for the products. Any additional or different terms or conditions contained in any document furnished by Buyer, including but not limited to, any purchase order or any acknowledgment, are deemed to be material and are hereby objected to and rejected by Seller. If such agreement shall be deemed an offer or counter-offer by Buyer, Seller expressly rejects such offer or counter-offer and limits acceptance to these Contract terms and expressly objects to any different or additional terms proposed by Buyer. Any actual performance by Buyer or Seller thereafter shall be deemed a renewal of the offer contained in this Contract and acceptance of this Contract without change. In the event of a conflict between the terms of this Contract and the terms of any other document, the terms of this Contract shall control. The offer to sell Seller's products is valid for thirty (30) days from the date of the Proposal.

2. PAYMENT TERMS. All prices specified in this Contract are FOB Seller's designated location for delivery. All risk of damage to or loss of the products from any cause whatsoever shall pass to Buyer upon delivery, even if Seller arranges for shipment of the product. Unless otherwise expressly provided on the reverse hereof, payment shall be made within thirty (30) days from the earlier of the date of delivery or the date of an invoice, without discount. Any discount which may be expressly provided in the Proposal applies to the sale price of the products at the shipping point, and does not apply to any charges made for taxes, storage, loading or transportation. All payments shall be made in United States dollars. Interest will be charged at the rate of eighteen percent (18%) per annum, or the maximum interest rate allowable by applicable law, whichever is lower, on all unpaid invoices. Buyer shall pay all taxes and charges of any nature imposed by any federal, state, or local governmental authority by reason of the sale or delivery of the products whether levied or assessed against Seller, Buyer, or the products. Such applicable taxes or charges, if not included in this Contract, shall be invoiced separately. If, in Seller's opinion, reasonable doubt exists as to Buyer's financial condition, Seller may, at any time and without prejudice to any other remedies, suspend or terminate performance of any order, decline to ship, stop any material in transit, or require full or partial payment by Seller in advance.

3. DELIVERY; TITLE. Any delivery or promise date indicated on the Proposal is an estimate of the date Seller believes the products will be available for delivery, provided, however, Seller shall not be responsible for any delays in delivery. Title to the products will not pass to Buyer until all required payments have been made to Seller.

4. WARRANTY.

a. **Limited Warranty; Exclusion of Third Party Components.** Subject to the terms, conditions and limitations contained herein, Seller warrants only to the original Buyer that Seller's new products will not fail to operate in accordance with their specifications due to defects in material or workmanship during the period which ends one (1) year from the date of delivery, normal wear and tear excluded. The foregoing period is sometimes referred to as "original warranty period." The foregoing limited warranty does not apply to any part, portion or component of any product which is manufactured by a third-party ("Third-Party Component").

b. **DISCLAIMER OF ALL OTHER WARRANTIES, EXPRESS, IMPLIED OR STATUTORY.** THE LIMITED WARRANTY SET FORTH IN THE FOREGOING PARAGRAPH IS THE SOLE AND EXCLUSIVE WARRANTY WITH RESPECT TO THE PRODUCTS. SELLER MAKES NO OTHER EXPRESS WARRANTY OF ANY KIND OR NATURE AS TO THE PRODUCTS OR THEIR PERFORMANCE EXCEPT FOR THOSE LIMITED WARRANTIES EXPRESSLY SET FORTH IN THE FOREGOING PARAGRAPH AND SPECIFICALLY DISCLAIMS ANY AND ALL REPRESENTATIONS OR WARRANTIES OF ANY KIND OR NATURE CONCERNING THE PRODUCTS, INCLUDING, BUT NOT LIMITED TO, ANY REPRESENTATION OR WARRANTY THAT THE PRODUCTS COMPLY WITH ANY LAW, RULE OR REGULATION. SELLER MAKES NO WARRANTIES WITH RESPECT TO ANY THIRD PARTY COMPONENT AND SELLER SPECIFICALLY SELLS SUCH THIRD-PARTY COMPONENTS "AS IS" WITHOUT ANY WARRANTY. FURTHER, SELLER MAKES NO IMPLIED WARRANTY OF ANY KIND OR NATURE WITH RESPECT TO ITS PRODUCTS OR ANY THIRD-PARTY COMPONENT AND SPECIFICALLY DISCLAIMS ANY AND ALL IMPLIED WARRANTIES, INCLUDING, BUT NOT LIMITED TO, ANY AND ALL IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, NON-INFRINGEMENT, OR COMPLIANCE WITH ANY FEDERAL, STATE OR LOCAL LAW, RULE OR REGULATION. IN ADDITION, SELLER EXPRESSLY DISCLAIMS TO THE FULLEST EXTENT ALLOWED BY LAW, RULE OR REGULATION ANY WARRANTY PROVIDED UNDER ANY FEDERAL, STATE OR LOCAL LAW, RULE OR REGULATION.

c. **Terms and Conditions of Warranty; Voiding of Warranty; Notice Requirements.** The limited warranties set forth above shall be null and void if (a) any alterations or modifications are made to a product, (b) a product is not maintained in strict compliance with the maintenance requirements set forth in the maintenance manual for such product or otherwise provided to Buyer, (c) any repairs are made to a product which are not authorized by Seller in writing, (d) any failure of a product to comply with the above limited warranty is not reported to Seller in writing within thirty (30) days of the date such failure first occurs, (e) a product is operated after the failure of any warranty first occurs, (f) a product is used for any purpose other than for the purpose for which it was manufactured, (g) a product is not operated in strict compliance with the terms and conditions set forth in any operating manual for the product (including but not limited to exceeding the load bearing capacity of the product), (h) a product is abused or damaged, (i) Buyer fails to deliver the product to Seller for inspection and testing if requested by Seller or Buyer disposes of the product or any part or component on or before the sixtieth (60th) day after sending a written claim under the warranty to Seller, or (j) such failure of the limited warranty results from a failure of any Third-Party Component.

d. **Course of Dealing; Course of Performance; Usage of Trade.** No course of dealing or course of performance of Seller with respect to the products sold under this Contract and no usage of trade shall be considered in interpreting this Contract or any part thereof and none of the foregoing shall be considered a waiver or modification of any such terms, conditions, disclaimers or limitation of the limited warranties or disclaimers contained in this Contract. No statement, whether written or oral, made by any employee, sales person, distributor, agent or contractor of Seller which is not set forth in this Contract shall be considered a covenant, representation or warranty with respect to any product, its specifications or its performance and all such statements are hereby disclaimed.

e. **Exclusive Remedies for Breach of Warranty.** The sole and exclusive remedy for any failure of any product to comply with the limited warranty set forth above or any other warranty imposed upon Seller by law, if any, shall, at the election of Seller, in its sole discretion, be either (a) the repair or replacement of the product which failed to comply with such warranty or (b) the refund of the purchase price of the product. Buyer is responsible for all labor costs in connection with the repair or replacement of any equipment; however, Seller will be responsible for its own labor performed in connection with any repair of equipment products at Seller's location. Except as provided below, any repair or replacement shall carry the same warranty as the original product but only for the remainder of the original warranty period. Buyer's exclusive remedy with respect to any claim arising out of or as a result of Third-Party Component shall be against the third-party manufacturer.

f. **Warranty Claims; Notice Requirement; Limited Time to Bring Claims.** Any and all claims under the above limited warranty shall be made to Seller only in writing and not later than thirty (30) days after the date the product first fails to comply with the above limited warranty but in no event later than the expiration of the original warranty period with respect to which the claim is being made. Any claim under the above limited warranty made after such period for making a claim shall be null and void. After receiving written notice of the warranty claim, Seller shall determine whether to (a) repair or replace the product or part or (b) refund the purchase price of the product. Seller may require Buyer to return any product or part thereof which Buyer claims to be defective to Seller at Buyer's cost for inspection as a condition to any claim under the above limited warranty. No product or part may be returned to Seller without Seller's prior written authorization. If a product which is returned is determined by Seller in its sole discretion not to have failed to comply with the limited warranty, Buyer shall pay costs of removal, repair and/or replacement for such product. If a product which is returned is determined by Seller in its sole discretion to have failed to comply with the limited warranty, Seller shall pay for all repair and/or replacement costs for such product (or refund the purchase price if so elected by Seller) and Seller shall reimburse Buyer for the reasonable costs of shipping the defective product or part to Seller.

g. **Limitation on Liability for Breach of Warranty and Other Claims.** If the warranty and the remedy for any failure of any product to comply with any warranty are deemed for any reason to fail their intended purpose, Seller's liability for any failure of any product to comply with any such warranty, together with any and all other liability, if any, arising out of or in connection with such product, including, but not limited to, all claims, whether in contract, tort, or otherwise, arising out of, connected with, or resulting from the manufacture, sale, delivery, resale, repair, replacement, or use of the product, shall not exceed the purchase price for such product. In no event shall Seller be responsible or liable to Buyer or any third party under any circumstances for any indirect, consequential, special, punitive or exemplary, damages or losses, including, but not limited to, damages for loss of profits, goodwill, use of the product or any other equipment or other intangible losses which may be incurred in connection with the product regardless of the type of claim or the nature of the cause of action, even if Seller has been advised of the possibility of such damage or loss. Any and all claims that Buyer has against Seller, whether or not Buyer is aware of such claims, must be brought by Buyer within thirty (30) days after the date that such claim first arose, but in any event within the applicable warranty period set forth above. Any claim not brought by Buyer within the applicable thirty (30) day period shall be deemed null and void.

5. **INDEMNIFICATION.** Buyer will indemnify and hold harmless Seller, its affiliates and their respective officers, directors, employees, agents and other representatives and will, at Seller's option, defend any action brought against same with respect to any claims, judgments, actions, suits, demands, damages, liabilities, costs or expenses (including, but not limited to, reasonable attorneys' fees and legal expenses) associated with or arising from the ownership, use or operation of the products by Buyer or any third party.

6. **TERMINATION OF PERFORMANCE.** Buyer may cancel its purchase only with the written consent of Seller and upon terms that will indemnify and compensate Seller from any loss, damage and expense arising from such cancellation. Seller may terminate this Contract pursuant to Sections 2 and/or 11 hereof, and in such event, Seller shall have no further liability to produce or ship any products hereunder and shall have no liability for damages to Buyer or any third party.

7. **TECHNICAL ADVICE.** No obligation or liability shall arise out of Seller's rendering of technical advice in connection with Buyer's order of products. Any technical advice furnished, or recommendation made by Seller or any employee or representative of Seller, concerning any use or application of any products or parts furnished under this Contract is believed to be reliable, but Seller makes no warranty, express or implied, of results to be obtained. Buyer assumes all responsibility for loss or damage resulting from the handling or use of any such products or parts in accordance with such technical advice or recommendation. The selection of the products ordered, or design of any custom products, shall be Buyer's sole and ultimate responsibility, and Seller shall have no liability whatsoever for any design defects of custom products, or if the products ordered are unsuitable for Buyer's intended use. Any advice or assistance provided by Seller to Buyer in connection with Buyer's selection or design of the products is at Buyer's risk, and Seller makes no representation or warranty whatsoever in connection with such advice or assistance.

8. **ASSIGNMENT.** Buyer shall not assign its rights or obligations under this Contract without the prior written consent of Seller, which consent may be withheld for any reason in the sole discretion of Seller. Any attempt at such assignment by Buyer without the prior written consent of Seller shall be deemed null and void. This Contract will be binding upon the parties hereto, and their successors and permitted assigns.

9. **GOVERNING LAW.** This Contract shall be construed, interpreted, and governed by the laws of the State of Minnesota without regard to its conflict of laws principles. The exclusive forum for any disputes arising out of or relating to this Contract shall be any federal or state court sitting in the State of Minnesota. The parties irrevocably consent to such exclusive jurisdiction in such courts and to the proper venue therein. If Seller must resort to legal action or remedies, Buyer shall reimburse Seller for all of Seller's legal fees and expenses, whether or not suit is filed by Seller.

10. **FORCE MAJEURE.** Seller does not assume the risk of and shall not be liable for failure to perform any obligation caused by civil insurrection, war, fire, strike, labor stoppages or other labor disturbances, acts of God, acts or omissions of Buyer, acts or omissions of any government body or entity, floods, epidemics, freight embargoes, shortages of fuel, energy or materials, failure of suppliers or subcontractors to satisfactorily meet scheduled deliveries, or any other cause beyond the reasonable commercial control of Seller.

11. **NOTICES.** Any notices, consents or other communications required or permitted under this Contract must be in writing and delivered personally, overnight air courier, registered or certified mail or facsimile. Unless otherwise stated in this Contract, notices, consents or other communication will be deemed received (a) on the date delivered, if delivered personally or by facsimile transmission; (b) on the next business day if sent via overnight air courier; or (c) three (3) business days after being sent, if sent by registered or certified mail.

12. **SEVERABILITY; WAIVER.** The invalidity or unenforceability of any provision of this Contract shall not affect the validity or enforceability of any other provision of this Contract. No waiver of any of the provisions of this Contract shall be deemed, or shall constitute a waiver of any other provision, whether or not similar, nor shall any waiver constitute a continuing waiver. No waiver shall be binding unless executed in writing by the party making the waiver. The Section headings included herein are for the convenience of the parties only and in no way alter, modify, amend, limit or restrict the contractual obligations of the parties.

13. **NO THIRD-PARTY BENEFICIARIES; SETOFF.** Nothing in this Contract is intended to, or shall, create any third-party beneficiaries, whether intended or incidental, and neither party shall make any representations to the contrary. Seller shall have the right to deduct from any sums it owes to Buyer, any sums or the value of any obligation owed by Buyer to Seller.

14. **SURVIVAL.** The provisions of Sections 3, 4, 5, and 7 through 14 shall survive the termination and performance of this Contract.

AGENDA ITEM NO. 11

Authorization of Change Orders

AGENDA ITEM NO. 12

Authorization of Federal and State Grants

AGENDA ITEM NO. 13

Adoption of Budget 2023 in the amount of \$228,684,996 (includes \$164,353,548 of Contributed Capital) and authorization to transfer \$110,552 from the Authority to the Albany County Airport Authority OPEB Trust.

AGENDA ITEM NO: 13
MEETING DATE: November 7, 2022

**ALBANY COUNTY AIRPORT AUTHORITY
REQUEST FOR AUTHORIZATION**

**ACAA Approved
11/07/2022 with inclusion
of adjustments of Million
Air Budget.**

DEPARTMENT: FINANCE

Contact Person: Michael F. Zonsius, Chief Financial Officer

PURPOSE OF REQUEST:

Adoption of Budget 2023 in the amount of \$228,684,996 (includes \$164,353,548 of Contributed Capital) and authorization to transfer \$110,552 from the Authority to the Albany County Airport Authority OPEB Trust.

BACKUP MATERIALS:

- Attached Budget 2023 Memo to Finance Committee including:
 - Introduction
 - Economic Drivers
 - Significant Assumptions;
 - Budgeted Staff Positions;
 - Summary of Revenues and Expenses
 - Airline Rates & Charges;
 - Projected 2021 End of Year Settlement with Airlines;
 - Adoption of 2023 Budget;
- Please refer to Budget 2023 for the Year Beginning January 1, 2023; and

JUSTIFICATION:

On October 17, 2022, the ACAA Finance Committee met and approved revisions to the preliminary budget that are incorporated therein. The Authority's Airline Rates & Charges consultant has also reviewed the budgetary data and airline rates and charges for consistency with the Airline Use and Lease Agreement and the Master Bond Resolution.

FINANCE COMMITTEE RECOMMENDATION:

Recommend adoption of the 2023 Operating Budget.

CHIEF EXECUTIVE OFFICER'S RECOMMENDATION:

Recommend adoption of the 2023 Operating Budget.

Albany County Airport Authority

Annual Budget for the Year Beginning January 1, 2023

Adopted November 7, 2022

A component unit of the County of Albany,
Located in the Town of Colonie, New York

	Actual 2021	Budget 2022	Projection 2022	Budget 2023

November 7, 2022

Samuel A. Fresina, chairman;
Board Members, Albany County Airport Authority;
Philip F. Calderone, Esq;
Fellow Employees:

Presented herewith is the 2023 Annual Budget for the Albany County Airport Authority as approved by the Board on November 7, 2022.

This budget incorporates the operations of two companies that operate under cost recovery/reimbursement agreements with the Authority: AFCO AvPORTS Management, LLC (d/b/a AvPORTS), responsible for the daily operations of the Airport; and, REW Investments, Inc., (d/b/a Million Air-ALB) responsible for the daily operations of the Fixed Base Operation (FBO).

This budget document is divided into six components: Budget Message, Department Overview and Detail, Debt Service, Capital Budget, Rates & Charges and Supplemental Information.

BUDGET OVERVIEW

As lasting affects of COVID-19 lessen, the Authority begins a period of post-pandemic operations as business and leisure travel resumes. Year-end 2022 enplanements of 1,250,000 are estimated, a 17.8 percent decrease from 2019's 1,520,000 enplanements. The Authority is confident in the airport's future growth and is expecting to surpass 2019 enplanements in 2025.

Budget 2023 was prepared based on 1,400,000 enplanements, approximately 92.1 percent level of 2019 enplanement activity. With this number of enplanements, the combined operating revenues of the airport and the FBO are budgeted at \$58,287,414, an increase of \$7,806,304 from Budget 2022. Combined operating expenses are budgeted at \$45,892,553, an increase of \$5,130,351 from Budget 2022.

Budget 2023 priorities are as follows:

- Maintaining a safe airport; and,
- Increasing liquidity by controlling costs; and,
- Updating facilities and equipment; and,
- Providing necessary resources for Staff.

The achievement of these priorities, however, are challenged in these COVID-19 era times. The COVID-19 pandemic made readily apparent the difficulty in financial/budget management of an airport that has disproportionate variable revenues versus fixed costs. Approximately 75 percent of the airports revenue is variable based directly on the number of airport passengers, i.e. revenues derived from parking, concessions, and rental cars. As passengers in/decrease, so does 75 percent of the airport's corresponding revenue. Unlike the revenues however, the costs of operating the airport are predominantly fixed, attributable largely to personnel expenses. Regardless of the number of passengers, the number of personnel, their salaries and wages, and benefits remain the same or moderately increase with annual pay adjustments. To address this issue, the Authority's action is to diversify its revenue portfolio with non-aviation fixed revenue streams including off-airport leasing and development.

Lessening the impact on operating revenues is the additional in CARES Act (CRRSA) funding. This funding is used for both salary and debt service and has been budgeted for receipt of \$5,091,757 in 2023.

As our times become more certain, Staff remains steadfast in efforts to, not only maintain, but enhance a safe airport and assure it's financial survivability for many years to come.

OVERVIEW AND ECONOMIC CONDITIONS

The economic barometers of the airport - enplanements, operations and cargo tonnage - have been adjusted to reflect the recovery to pre-pandemic levels, expected recovery to Pre-COVID levels is not expected until 2024/2025:

	Enplanements	Operations	Cargo Tonnage
2019	1,518,969	60,748	20,009
2020	520,029	43,745	21,163
2021	976,037	47,849	23,049
2022P	1,200,000	53,500	22,000
2023P	1,400,000	56,000	22,050

OVERVIEW AND ECONOMIC CONDITIONS, continued

The best measurement of a region's economy is the unemployment rate. As shown below, the unemployment rate remained stable for the past five years, save the COVID-19 year.

	Capital Region	State of New York	United States
2018	3.5%	4.0%	3.9%
2019	3.5	3.9	3.6
2020	5.0	8.8	6.7
2021	2.6	5.4	3.9
2022, thru Jun	2.9	4.4	3.6

PROFILE

The Albany International Airport ("ALB") is categorized by the Federal Aviation Administration ("FAA") as a small hub airport and comprises 1,164.9 acres. The Airport is served by five legacy, one ultra low cost passenger carrier (Frontier vacated ALB in 2023) and two cargo carriers with enplanements as follows:

	2019	2021	2023E
Enplanements			
Allegiant	78,107	50,033	75,500
American	312,378	222,576	335,800
Delta	250,816	161,142	243,200
Frontier	60,804	31,693	*
JetBlue	92,149	75,211	113,500
Southwest	488,147	319,869	482,700
United	230,993	114,964	173,500
Others (Charters)	<u>5,572</u>	<u>549</u>	<u>800</u>
	1,518,969	976,037	1,425,000

* Suspended service

As shown below are the number of weekly departures in January 2020 (pre-pandemic) and October 2021 and 2022.

	Weekly Departures Jan 2020	Weekly Departures Oct 2021	Weekly Departures Oct 2022
1. Atlanta	20	20	20
2. Hartford, CT	-	-	-
3. Baltimore	26	26	31

18. Tampa	9	1	2
19. Tampa - St. Pete	<u>2</u>	<u>2</u>	<u>2</u>
	313	267	277
* Seasonal			

Air cargo services are provided primarily by two cargo carriers as follows:

	FY2020 Cargo	FY2021 Cargo	FY2022E Cargo
Cargo (in tons)			
FedEx	12,125	9,294	9,200
United Parcel Service	14,460	12,202	11,000
Others	<u>1,938</u>	<u>1,134</u>	<u>1,100</u>
	28,523	22,630	21,300

ALB's Primary Air Trade Area comprises an area within a 60 to 70 mile radius of the Airport. This area encompasses a total of 13 counties, including the Albany-Schenectady-Troy Metropolitan Statistical Area (MSA), with the New York counties of Albany (the county in which the Airport is located), Saratoga, Schenectady, Schoharie, and Rensselaer; the Glens Falls MSA, with the New York counties of Warren and Washington; the additional New York counties of Columbia, Fulton, Greene, Montgomery; Berkshire County, Massachusetts; and Bennington County, Vermont. The Airport is the sole provider of

PROFILE, continued

commercial service in the air trade area.

The Primary Air Trade Area Population has remained relatively the same in the past five years as follows:

	Primary Air Trade Area Population
2015	1,385,661
2016	1,382,901
2017	1,387,354
2018	1,381,063
2019, Census	1,405,031
2021, Thru June 2021	1,404,730

The area includes over 31 employers with more than 1,000 employees, the largest employer being the State of New York with approximately 52,000 employees. The area includes 33 colleges and universities, 16 general-care hospitals, and offers a rich variety of cultural, recreational, educational resources, and activities.

FINANCIAL POLICIES

Financial policies, provided later in this section, set forth the basic framework for the overall fiscal management of the Authority. Operating independently of changing economic circumstances and conditions, these policies help the decision-making process of the Authority Board and administration. These policies provide guidelines and guidance for evaluating both current activities and proposals for future activities and programs.

Most of the policies represent long-standing principles (i.e. traditions and practices) that have guided the Authority for most of its existence. These traditions and practices have been further defined and refined over the past twenty-five plus years and have helped maintain the fiscal and financial stability in both the community and its government.

A guiding principle and policy is that of a balanced budget whereby current revenues equal or exceed current expenses.

Fiscal policies were designed to formalize and memorialize many of the traditions and practices that have long been followed; more clearly define the fiscal discipline of the Authority; and set standards to be maintained in the future. Within this context, it also compiles, assembles, and references the various policies that the Authority Board had previously formally adopted that bear clear fiscal and financial ramifications.

It has been identified that there are certain things that an Authority needs to do to protect itself and succeed, including:

- Maintain strong fiscal management
- Build cash reserves
- Maximize strengths
 - Good location
 - Transportation advantages
 - Strong fiscal management
- Minimize uncertainty
- Establish policy predictability
- Invest in the infrastructure that the Authority needs to succeed

The Authority Board has long incorporated these activities and practices in its planning and budgetary processes. This practice has arguably been beneficial for the financial well-being of the community and the Authority itself.

BUDGET PROCESS

The Public Authorities Reporting Information System (PARIS) is an online reporting system that allows the Authority to enter its budget information and submit reports to both the Authorities Budget Office and the Office of the State Comptroller, as required by law. Budget Reports are due sixty days prior to the start of the fiscal year.

BUDGET PROCESS, continued

New York Public Authorities Law requires the Authority make certain information is available online on its website. Posted website information must include:

- Mission Statement; and,
- Current Activities; and,
- Annual Financial Reports; and,
- Current Budget; and,
- Audit Report.

Budget Adoption The budget is adopted by resolution of the Authority Board.

Budget Calendar The FY2023 budget process is provided later in this section.

The Budget was discussed with the Board on three occasions:

1. In September a Draft #1 budget is provided to the Board.
2. On October 17th Draft #2 was presented and discussed with the Finance Committee.
3. On November 7th the budget was formally adopted.

After the final approval, the budget is filed with

- Public Authority Reporting Information System
- The ALB website
- Submitted to the GFOA Distinguished Budget Presentation Program.

Budget Amendment The Budget may be amended during the year. In the event the Authority recognizes such an occurrence, the budget is amended by resolution approved by the Board .

Budget Monitoring The independent monitoring of the budget continues throughout the fiscal year for management control purposes. Monthly financial statements comparing budget to actuals are presented to all senior staff and Board members for review.

REVENUES

Total revenues, both airport and FBO, are shown as follows:

	Actual	Budget	Variance
2019	\$51,732,939	\$53,926,386	\$ 2,193,446
2020	41,733,874	53,762,544	(12,028,670)
2021	45,459,292	45,833,662	(374,370)
2022 ⁽¹⁾	52,964,588	50,481,110	2,483,478
2023 ⁽¹⁾	na	58,287,414	

⁽¹⁾ estimated/budgeted

Budgeted 2023 Airport Revenue (not including FBO) increased \$6,144,788 from Budget 2022, largely as result increased enplanement activity driving ground transportation and concession revenue.

More so than in prior years, the financial activities of the Airport have been segregated from those activities of the Fixed Based Operator. This segregation allows the reader to better understand the financial activities of each, on an individual basis.

Segregated Airport and FBO actual revenues (not including CAREs Act Funding are shown as follows:

	Airport	FBO	Total
2019	\$41,306,048	\$10,426,891	\$51,732,939
2020 ⁽¹⁾	24,511,916	6,307,407	30,819,323
2021 ^{(1) (2)}	31,449,396	9,326,060	40,775,456
2022 ^{(1) (2)}	40,532,998	12,431,590	52,964,588
2023 ⁽²⁾	46,870,536	11,416,878	58,287,414

⁽¹⁾ Does not include CARES Act funding.

⁽²⁾ Budgeted/Projected

Airport and FBO Operating Revenue

REVENUES, continued

Budgeted 2023 FBO Revenue increased \$1,661,516 from the prior year's budget as a result anticipated increases in general aviation activity and the cost of fuel sold, the largest contributor of FBO revenue, that is passed on to the customer.

EXPENDITURES

Operating expenditures, those expenses related to the day-to-day operations are the Airport such as personnel, contractual services, and commodities. As mentioned in the Budget Overview, these expenditures are predominantly fixed and do not change all that much from year-to-year as shown below:

	Actual	Budget	Variance
2019	\$39,772,833	\$38,065,674	\$ 1,707,159
2020	33,441,068	38,790,993	(5,349,925)
2021	33,766,602	37,534,328	(3,767,726)
2022 ¹	39,814,003	40,762,202	(948,199)
2023 ¹	na	45,892,553	

¹ Projection/Budget

The \$5,068,821 increase in the 2023 budgeted airport operating expenses is primarily due to salary, full and part-time position, increases (\$1,150,609), public safety increases (\$798,674), control tower maintenance (\$469,000), engineering services (\$215,000), hardware/software support (\$160,678), snow removal supplies (160,486), and, credit card charge fees (\$158,000).

Airport and FBO Operating Expenditures

Similar to other airports, the Authority has the largest portion of its expenses (26% + 14% = 40.0%) attributable to personnel salaries, wages, payroll taxes and fringe benefits as shown below:

Like revenues, Airport and FBO actual expenses are segregated and shown as follows:

	Airport	FBO	Total
2019	\$31,312,534	\$ 8,460,299	\$39,772,833
2020	27,686,238	5,754,830	33,441,068
2021	26,281,612	7,484,990	33,766,602
2022 ¹	30,278,652	9,535,351	39,814,003
2023 ¹	35,719,629	10,111,394	45,892,553

¹ Projection/Budget

PERSONNEL

Ten positions will be added in the 2023 Budget and all full time positions have been budgeted as follows:

	Budget 2021	Budget 2022	Budget 2023
10 Airfield ⁽¹⁾	27	29	29
20 Terminal	35	36	43
Control Tower	2	2	2
21 Loading Bridges	2	2	3
30 Parking	36	39	33

In August 2022, S&P Global Ratings upgraded outstanding debt from A- to A citing "the rating action reflects our expectation that ALB's strong rebound in enplanement levels to near pre-pandemic levels will be sustained, supporting a return to business-as-usual rate-making with an improved market position assessment and a return of its enterprise risk profile assessment back to the pre-pandemic level of strength. We expect ALB will maintain financial metrics (S&P Global Ratings-calculated) consistent with an unchanged strong financial risk profile."

Current bond ratings area as follows:

Moody's	A3	Stable
S&P Global Ratings	A	Stable

CAPITAL IMPROVEMENT PROGRAM

The Capital Improvement Program (CIP) identifies all capital expenditures and their respective legal and regulatory funding sources within a five year time-frame. Capital expenditures are in excess of at least \$50,000 depending upon the asset category and have a useful life of greater than one year. The expenditures include replacement of rolling stock, building and infrastructure repairs, and contributions for grant-funded projects.

Prudent financial and budget management mandates the segregation and isolation of not only operating from capital funds, but the related cash inflow and cash outflow as well. It is imperative that segregation occur between operating from capital funds and also important that certain capital funds be segregated as well for statutory or other legal requirements.

Before issuing new debt, the Authority carefully reviews its own financial position, and its ability to repay new debt issues with the least impact on the airlines. New issues are often structured in recognition of our existing debt obligations and when those obligations are retired.

The debt service schedule for the next five years is as follows:

Year Ending December 31	Principal	Interest	Total
2022	6,685,000	3,335,200	10,020,000
2023	7,020,000	3,002,650	10,022,650
2024	7,280,000	2,653,400	9,933,400
2025	7,625,000	2,291,250	9,916,250
2026	8,030,000	1,910,000	9,940,000

DEBT SERVICE

Debt service has remained relatively stable over the last five years. The payments not including Passenger Facility Charges (PFC's) applied for the last five years is shown below.

	Debt Service
2019	11,643,027
2020	11,066,097
2021	11,819,269
2022	10,020,200
2023	10,022,650

USE OF ESTIMATES

Both budgeted revenues and expenditures are estimated based on historical trends and, when applicable, underlying assumptions. Underlying assumptions may include enplanements, aircraft landed weights and aircraft operations.

BASIS OF BUDGETING

As a Proprietary Fund, the Authority uses a flow of economic resources, which is similar to the accrual basis of accounting with the below noted exceptions:

- Revenues are budgeted in the period they are earned and measurable:
- Expenses are budgeted in the period in which the liability was incurred:
- Depreciation of assets is not budgeted
- Capital outlay is budgeted as an expense not the year purchased;
- Principal payments are budgeted as an expense rather than a reduction to the liability.

GAAP FINANCIAL STATEMENTS

The Authority has adopted December 31 as its fiscal year end and issued its first financial statements in 1994. An audited comprehensive annual financial report has been issued each year thereafter. The Authority's financial statements are prepared on an accrual basis of accounting in accordance with generally accepted accounting principles (GAAP) promulgated by the Governmental Accounting Standards Board (GASB). The 2020 financial statements are available at www.albanyairport.com.

The Authority operates as a single enterprise fund. Enterprise funds distinguish operating revenues and expenses from non-operating items in accordance with the flow of economic resources measurement focus and the accrual basis of accounting. All assets, liabilities, net position, revenues, and expenses are accounted for through a single enterprise fund with revenues recorded when earned and expenses are recorded at the time liabilities are incurred. Capital assets are capitalized (except land) and depreciated over their useful lives. Funds are restricted for debt service and, where applicable, for construction projects.

DISTINGUISHED BUDGET PRESENTATION AWARD

For the Budget Year Beginning, January 1, 2022, the Government Finance Officers Association of the United States and Canada (GFOA) has presented the twentieth Distinguished Budget Presentation Award to the Albany County Airport Authority.

In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as an operations guide, as a financial plan, and as a communications device.

The award is valid for a period of only one year. We believe this current budget continues to conform to program requirements, and its submission to GFOA will determine eligibility for a subsequent award.

ACKNOWLEDGEMENT

I would like to express my appreciation for the contributions of Ms. Margaret Herrmann for her efforts in the preparation of this document in a coherent manner for all to read and digest.

The publication of this budget would not occur without the efficient and dedicated services of all the members of the Authority's Finance Department, plus those from AvPORTS and Million Air, who contributed to the process.

I would also like to thank Mr. Philip Calderone, Authority CEO, and the members of the Board for their support in planning and conducting the financial operations of the Authority in a responsible and progressive manner. Without their leadership and ongoing support, preparation of this report could not be have been accomplished.

Respectfully submitted,

Michael F. Zonsius, AAE, CPA
Chief Financial Officer

**Albany County Airport Authority
New York**

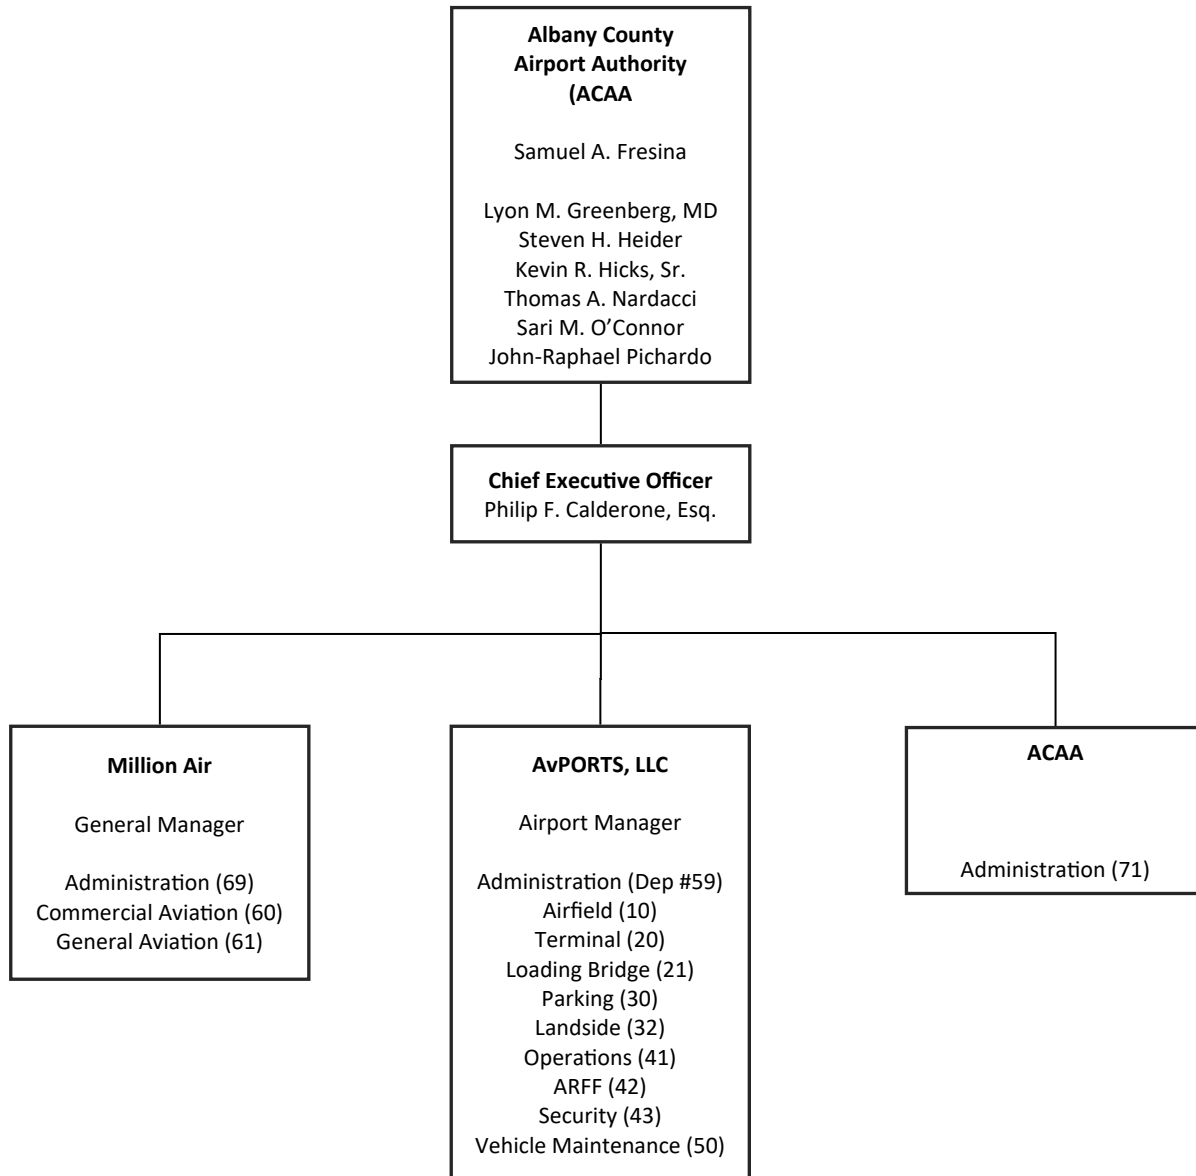

For the Fiscal Year Beginning

January 1, 2022

Christopher P. Morill

Executive Director

ORGANIZATION CHART

Number in parenthesis represents department number.

ORGANIZATION

The Albany County Airport Authority is a body corporate and politic constituting a public benefit corporation established and existing pursuant to the Albany County Airport Authority Act, Title 32 of Article 8 of the New York Public Authorities Law. The State of New York (State) created the Authority in 1993 in order to promote the strengthening and improvement of the Airport, to facilitate the financing and construction of the Terminal Improvement Project (TIP) and as well the subsequent capital improvement programs, and give the Authority the power to operate, maintain and improve the Airport.

The Authority is governed by seven board members, four members appointed by the majority leader of the County of Albany (County) Legislature and three members by the County Executive, all with approval of the County Legislature. The Authority board members are appointed for a term of four years or until a successor is appointed, except that any person appointed to fill a vacancy will be appointed to serve only the unexpired term.

STRATEGIC PLAN

The Public Authorities Reform Act of 2009 introduced a requirement that Public Authorities adopt a mission statement and performance measurements. During 2010, the Albany County Airport Authority adopted a new Mission Statement and related Performance Measurements. The Albany County Airport Authority adopted Mission Statement Performance Measurements that at the time, were consistent with the recommendations found in the Transportation Research Board ACRP Report 19—Development and Airport Performance Measurement System issued in 2010 and sponsored by the Federal Aviation Administration. Since then, having had time to digest and interpret the performance measures, the Authority has pared down the number of these measures to those that are priorities and readily and objectively identifiable.

The Authority continues to develop and refine its plans and programs with regard to its infrastructure, terminal and hangar buildings, equipment and staffing to maintain acceptable levels of service to its customers. The Authority has developed programmed schedules for vehicle and equipment replacements. Similarly, it has developed the Pavement Management Program in order to maintain runways, taxiways and aprons to an acceptable service level. Similar programs have been and are being developed for other components of the Authority's infrastructure.

The Authority's Strategic Plan is used as a source for the department's annual goals and is provided later in this section. The purpose of this plan is to identify and prioritize the issues facing the Albany International Airport and address those issues within the context of creating the annual budget. Provided that the Authority's vision, mission, goal, objectives, and values remain cogent for the Authority, the next step is to devise strategies to accomplish those goals and objectives.

At the department level, performance measures were developed to assess whether the Authority was successful in meeting its goals and objectives. As shown in the Supplemental Information Section of this budget report, are those performance measures.

As a matter of practice and for public review, the Authority prepares the performance measurements each year and incorporates them into both the annual financial report and the annual budget.

VISION

The Authority's vision statement is a measurable statement describing the future results the Authority seeks to achieve. The Authority's vision for Albany International Airport is to provide an exemplary airport in which to visit, travel, and work.

MISSION

The Authority's mission statement is a broad statement of what the Authority has been charged to accomplish and why. The Authority's mission is to provide adequate, safe, secure and efficient aviation and transportation facilities at a reasonable cost to the people. To accomplish our mission we will:

- Provide world-class, customer-oriented transportation services at Albany International Airport;
- Promote airline, cargo, business, and general aviation services at Albany International Airport by providing quality airport facilities;
- Operate the airport and provide services in the most cost-effective manner;
- Foster inter-modal transportation;
- Implement the airport's Capital Improvement Plan; and,
- Maintain financial security.

GOAL

The Authority's goal for the airport is derived from its mission and vision for the airport and describes the enduring end state desired for the airport. The Authority's goal for Albany International Airport is:

- To be widely recognized as the best airport of its size in the Northeast as well as an innovative model for a facility with vitality, enthusiasm, friendliness, competence, and efficiency.

OBJECTIVES

The Authority's objectives describe the outcomes required to accomplish the goal. The Authority's objectives in operating the airport are:

- To promote safe, secure, efficient and economic air transportation by preserving and enhancing Airport capacity.
- To acquire, construct, reconstruct, continue, develop, equip, expand, improve, maintain, finance, and operate aviation and other related facilities and services.
- To stimulate and promote economic development, trade and tourism.
- To form an integral part of a safe and effective nationwide system of airports to meet the present and future needs of civil aeronautics and national defense, and to assure inclusion of the Authority's facilities in state, national, and international programs for air transportation and for airway capital improvements.
- To ensure that aviation facilities shall provide for the protection and enhancement of the natural resources and the quality of the environment of the state and the capital district area.

VALUES

The Authority's values describe how the Authority will conduct itself, both internally and externally, when engaging in business activities. The Authority's values are:

- Responsiveness – being proactive; having a bias for action and sense of urgency in getting things done; anticipating the needs of tenants and passengers by taking fast action to surpass their expectations; encouraging tenant and passenger input.
- Integrity – possessing a commitment to doing the right things right, with consistent adherence to the highest professional standards; keeping commitments to our tenants, passengers, employees, and others.
- Innovation – dedicating ourselves to learning and growing; constantly searching for better ways to get the job done; using our collective imagination effectively to solve problems for our tenants, passengers and employees; going beyond perceived boundaries to get desired results.
- Teamwork – recognizing that every board member, employee, volunteer, tenant and others are important to the complete satisfaction of Albany International Airport; feeling personally responsible for successful outcomes; treating everyone with respect; communicating regularly, directly and honestly with our board members, employees, volunteers, tenants and others.

Strategic Plan

Strategy	Goal	Key Initiatives	Result
22-01 Ensure Long Term Financial Security	Provide the Albany International Airport ("ALB") with the financial resources to meet operational needs and meet all debt service obligations.	Maintain appropriate financial reserves.	<ul style="list-style-type: none"> → Maintain at least a 125% debt service coverage of net revenues. → Maintain its A3 / A- Bond Rating from Moody's and S&P Global Ratings , respectively. → Maintain a minimum two-month operating reserve.
		Enforce cost saving measures—improve purchasing processes, assess and identify savings at service levels and cost/benefit analysis.	<ul style="list-style-type: none"> → Implement cost saving plans. → Identify Savings.
		Increase non-aeronautical revenue.	<ul style="list-style-type: none"> → Identify new revenue streams. → Generate new business at ALB.
22-02 Promote Customer Service	Ensure ALB provides world-class customer service.	Promote Albany International Airport to international and domestic airlines to increase air service.	<ul style="list-style-type: none"> → Increase non-stop destinations. → Increase flight frequency.
		Evaluate customer service needs based on changing demographics of traveling public.	<ul style="list-style-type: none"> → Increase concession revenues. → Increase passenger activity.
		Review roles and responsibilities for customer service between airlines and other Airport businesses.	<ul style="list-style-type: none"> → Identify service responsibilities. → Increase customer service.
20-03 Strengthen Relationships	Strengthen Albany International Airport's effectiveness through interdepartmental relationships and alliances with regional businesses, public agencies, governmental units and airlines.	Encourage internal teamwork.	<ul style="list-style-type: none"> → Improve effectiveness through cross department communications, coordination and sharing.
		Strengthen partnerships with Federal and State agencies.	<ul style="list-style-type: none"> → Improve communications and integration of efforts with Federal and State agencies.
		Strengthen partnerships with the regional business communities.	<ul style="list-style-type: none"> → Improve coordination efforts between ALB and the regional business communities
		Build public support of Albany International Airport policies and initiatives through proactive communication and public relations outreach activities.	<ul style="list-style-type: none"> → Improve communications at ALB's policies and programs. → Increase support of ALB's positions and activities.

Strategic Plan

Strategy	Goal	Key Initiatives	Result
20-04 Utilize employee experience and knowledge to adjust to changing business needs	Ensure Albany International Airport acquires/retains employees with ability, experience and knowledge to fulfill its mission	Ensure employee wages and benefits are competitive.	→ Ensure Airport is competitive in the marketplace and able to attract and retain quality talent.
		Expand employee training programs.	→ Enhance employee knowledge and skill development in every department.
		Design and integrate leadership development process.	→ Leadership that supports organizational goals. → Preserve organizational knowledge.
		Build public support of Albany International Airport policies and initiatives through proactive communication and public relations outreach activities.	→ Improve communications at ALB's policies and programs. → Increase support of ALB's positions and activities.
20-05 Utilize new technology	Improve performance, increase productivity and deliver cost effective services.	Establish strategic investments in new equipment and technology based on current industry standards.	→ Upgrade equipment and electronic technology that improves productivity.
		Evolve server equipment to virtual server technology.	→ Lower energy maintenance, hardware and disaster recovery costs → Greater efficiency and productivity → Lower capital and operational technology costs.
		Distribute software updates, patches and new programs electronically.	→ Complete updates and installations. → Produce greater productivity and security.
		Evaluate common use system and support services at ALB.	→ Common use systems upgraded.

Performance Measurements

Area of Measurement	Performance Measure	Performance Measure Component	Final 2018	Final 2019	Final 2020	Final 2021	Budget 2023

		AFCO/AvPORTS	15.4%	15.4%	14.3%	10.0%	10.0%
		Million Air FBO	19.0%	19.0%	9.0%	31.3%	10.0%
		ACAA	0.0%	0.0	0.0%	0.0%	0.0%
	Workforce Diversity	Minority Representation in Workforce	19.3%	20.4%	19.7%	20.7%	20.0%

* The increase in 2020 and 2022 is due to the large decrease in the enplanements (denominator) due to the COVID-19 pandemic

Note 1—An insufficient number of customer satisfaction survey were conducted to report on this performance measure.

FINANCIAL POLICIES

Guidelines

The budget process and format shall be performance based and focused on goals, objectives and performance indicators.

The budget will provide adequate funding for operation and maintenance of the Airport buildings and property, and replacement of capital equipment, construction, reconstruction and development at the Airport.

Balanced Budget

The budget should be balanced whereby current revenues equal to or greater than current expenditures.

Strategies to accomplish this balance include cost efficiencies, personnel efficiencies, increasing or implementing fees to match program expenses, fund balance usage (if available), and service reduction (if needed).

Budget Amendments

The adopted budget represents a business plan covering all Airport operations for the upcoming year.

If the plan needs to be significantly modified during the year the proposed revisions to the plan, together with their financial impact on either revenues or expenses, are presented to the Authority Board for review and approval.

No amendments have been enacted during the year 2021.

Budget Monitoring

The independent monitoring of the budget continues throughout the Fiscal Year for management control purposes.

Operating statements comparing actual financial results to budgets are reported monthly by the Chief Financial Officer and distributed to Board members, senior management and all key employees. Quarterly and annual financial reports are posted on the Authority's website – www.albanyairport.com.

Performance Measurements

Performance measurements are developed based on program objectives that tie to the Airport's vision, mission and values.

Performance measurements measure program results or accomplishments to provide good comparisons over time.

Performance measurements are monitored and used in decision-making processes.

Planning

The Authority will develop a five-year capital plan every five years commencing September 1, 1995. Each five-year plan must be approved by the Albany County Legislature.

The five-year plan will include estimated operating costs and revenues for future capital improvements.

Capital Improvement Policies

Capital projects that will be made during the current budget year should be detailed by project and type of work.

Progress projections for the five-year capital plan will be updated on a yearly basis.

The Authority will identify the estimated costs and potential funding sources for each capital project proposal.

The Authority will determine the least costly financing method for all new projects.

The Authority will maintain all its assets at a level adequate to protect the Airport's capital interest and minimize future maintenance and replacement costs.

Debt Policy

The Authority will manage its current and future debt service requirement to be in compliance with all bond covenants.

The Authority will confine long-term borrowing to capital improvements or projects that cannot be financed from current revenues.

The Authority will maintain communications with bond rating agencies regarding its financial condition and will follow a policy of full disclosure.

The Authority, when applicable, will determine if the financial market place will afford the opportunity to refund an issue and lessen its debt service costs.

The Authority shall attempt to limit total debt outstanding to no more than \$100 per enplanement.

The Authority will not go over its legal debt limit of \$285 million.

FINANCIAL POLICIES, continued

The Authority will comply with its Derivative Policy which limits the use of derivative financial products to capital financing.

The Authority will comply with its Variable Rate Debt Policy which limits the use of net permanent variable rate debt to twenty percent of total debt outstanding.

Revenue Policy

The Authority will estimate and project its annual revenues by an objective and analytical process, as practical, on a yearly basis.

The Authority will maintain a diversified and stable revenue system to shelter it from unforeseeable short-run fluctuations in any one-revenue source.

The Authority will maintain sufficient revenues to pay all expenditures incurred for the operations and maintenance at the Airport.

Rates and Charges

The Authority and the airlines have negotiated a Use and Lease Agreement that became effective on January 1, 2016 to establish how the airlines that signed the agreement will be assessed annual rates and charges for their use of the Airport. Rates and charges are established annually. The calculation thereof is set forth later in this document. The agreement is effective through December 31, 2021 with an option to renew for two one-year options and one two-year option.

Compliance with Master Bond Resolution

The Authority has established the following funds and accounts as required by the Master Resolution and has set the policy on fund balance as follows:

- Revenue Fund - holding revenues collected by the Authority and applying revenues as required by the Master Resolution. Our policy is to keep only necessary amounts for working capital.
- O&M Fund, holding anticipated O&M expenses. Extra unused funds are applied to the accounts below;
- O&M Reserve - holding reserve for O&M expenses, equaling two months of O&M expenses as required by the Master Resolution;
- Bond Fund - including only principal and interest to be paid in the next payment dates;
- Bond Reserve Fund - including only amounts required by the Master Resolution;

- Renewal and Replacement Fund - The Authority's policy is to keep a minimum balance of \$500,000 in this account:

- Airport Development Fund - holding retained earnings of the Authority. The Authority's policy is to use this fund to build additional liquidity or avoid capital borrowing.

- Capital Construction Fund - to hold funds for Capital Project expense.

In addition, the Authority has the following funds and accounts:

- PFC account - holding all Passenger Facility Charge revenues collected by the Authority, to be used for future rates and charges or pay-as-you-go projects. The Authority reviews airlines rates and charges annually to determine the fund balance;
- Concession Area Improvement funds - collected by the Authority for improvement to concession areas if needed at the Authority's discretion; and

Investment Policies

The investment of Authority funds is governed by provisions of its enabling legislation and by an Investment Policy last amended by the Authority July 23, 2018. Any State or Federally chartered commercial bank that can meet the Authority's requirements in its Cash Management and Investment Policy which specifies required ratings and capabilities is authorized for deposit of monies.

Monies not needed for immediate expenditure may be invested in

- (1) United States Treasury obligations
- (2) Obligations backed by the United States Government full faith and credit
- (3) Obligations of New York State
- (4) Obligations of any other state provided it has received the highest rating by one independent rating agency designated by the State Comptroller
- (5) Certificates of deposit fully collateralized from a bank or trust company in New York State
- (6) Repurchase agreements using United States Treasury obligations with maturities of seven years or less.

Investments are stated at cost or amortized cost if maturity at time of purchase is less than 1 year and fair value if greater than 1 year.

GOVERNMENTAL BUDGETARY FUND STRUCTURE

The Authority uses a Proprietary Fund structure, defined below, to record the financial activities. This method is used because the Authority is a self-supporting entity whereby the payment of all Authority expenditures is supported by all Authority revenues.

Generally, however, governments use fund accounting to record their financial activities. Fund accounting means activities are separated so as to have its own set of financial records, this segregation is often caused by legal, statutory or practical purposes. This structure provides three broad categories of governmental fund types; governmental, proprietary, and fiduciary that may be further broken down as shown below.

Governmental Funds are those through which most governmental functions are financed and provided. Governmental fund types are broken down into three categories explained in further detail below.

- General Fund, is the primary operating fund of a government. It is used to account for all financial resources and activities except those required to be accounted for in another fund. This fund records the day-to-day financial activities that include, administration, police and fire protection, and public work activities.
- Special Revenue Funds are used to record revenue that has a restriction as to how the funds are to be used/ expended. Each special revenue fund provides a unique service or activity and is funded via taxes and/or user charges that are legally limited to being expended strictly on the purpose of that fund.
- Capital Projects Funds accounts for all fixed asset acquisitions and major capital projects not otherwise accounted for in other capital projects or enterprise funds.
- Debt Service Funds are used to accumulate funds for the payment of general long-term debt service. These funds are frequently stipulated by bond indentures.

Proprietary Funds are established to account for the financing and self-support operations and activities of governmental units which render services to the public on a user-fee basis. These operations are often similar to those found in the private sector operated for a profit.

- Enterprise Funds are used to account for private enterprise type activities whereby the intent, at a minimum, is to have the financial resources meet or exceed the activity's expenses. The Authority has one Enterprise Fund for the airport where the expenses are wholly supported by the fees charged for landings, property rent, fuel and other services provided.

Fiduciary Funds are used to record trustee type activities of the Authority, whereby the Authority holds the assets in trust.

- Pension Trust Funds are used to account for the accumulation of resources used to pay pension benefits.
- Agency Funds are used to account for assets held by the Authority as an agent for individuals, private organizations, other governments. The Authority has one agency fund.

GOVERNMENTAL BUDGETARY FUND STRUCTURE

To account for the financial activities of the Airport, the Authority categorizes all revenue and expenses into one of the following department/cost centers as shown below:

				Day-To-Day Responsibility			Rates & Charges			
							Allocation		Revenue Sharing	
Department Number	Department Name	Revenue	Expense	AvPORTS	Fixed Base Operator	Albany County Airport Authority	Direct	Indirect	Allocat. of Allocat.

Long-Range Financial Plan

The importance of a Long-Range Financial Plan has become increasingly apparent during the recent COVID-19 pandemic. The Authority financially sustained itself as a result of long term financial planning that included the maintenance of operating reserves and prudent financial management.

Above all else, the safety of the airport's passengers, employees and visitors is foremost. Thereafter, the Strategic Plan comes into play with the Long Term Financial Plan which includes; maintain at least 125% coverage of net revenues, maintain its A3/A- bond rating, and, maintain a minimum two-month operating reserve. The Authority also has its obligations under Airport Improvement Program to maintain a financially self-supporting, as possible, entity.

The major assumption is an inflation rate of approximately 2.5% percent.

As follows is the Authority's three (3) year Long Term Financial Plan:

Airport

	Enplane.	Operating Revenues	Operating Expenses	Operating Profit	Non Operating Revenue and Expenses	Debt Service	Capital Contribution	Total
2022	1,200,000	\$40,512,352	(\$30,035,989)	\$10,476,363	\$4,269,939	(\$10,021,264)	\$9,632,000	\$14,357,038

10 AIRFIELD
Overview

10

This cost center includes the salaries and benefits for the airfield maintenance workers and the direct costs associated with the maintenance and repairs of all areas inside the Air Operations Area (AOA), which includes the runways, taxiways and ramp areas. This cost center also includes the expenses for the glycol containment system and all maintenance and repairs for airside buildings including the airfield/vehicle maintenance facility.

Manager: Ray Camilli - AvPORTS LLC

Rates & Charges Allocation: Direct; cost bore by Signatory Airlines.

Goals / Objectives / Performance Measures:

1. Runway incidents, 0
2. SPEDES Permit Sactions, 0

71 AUTHORITY ADMINISTRATION
Overview

71

This cost center is used to account for the salaries and benefits for the Airport Authority's administration and financial staff. Also included in this category are risk management, professional services and all the day-to-day office and administration expenses needed for the Authority.

Rates & Charges Allocation: Rates & Charges Allocation: Indirect; charges allocated based on proportion of expenses for all cost centers.

Goals / Objectives / Performance Measures:

1. GFOA Distinguished Budget Rating Form: 50% Proficient, 50% Outstanding

Section 6 Debt Service

2021E does not include defeasance of \$580,000 Series 2007A Bonds.

DEBT POLICY

The actual amount of debt the Authority may have outstanding at any one time is limited by the following:

- The Authority's legal debt limit (\$285 million). The Authority's debt limit was increased from \$175 million to \$285 million during 2004 by State legislation enacted (Chapter 500), amending the Albany County Airport Authority Act, Title 32 of Article 8, of the New York State Public Authorities Law. The Authority has historically only issued debt to fund major capital improvement projects in excess of \$50,000.
- The Authority's Master Bond Resolution which permits new borrowings only if the Authority's net revenues equal 125% of Maximum Annual Debt Service on all debt outstanding and the proposed debt to be issued. This debt coverage calculation can be found in the Rates and Charges section of this document.
- The maintenance of investment grade debt ratings from major debt rating agencies. These agencies generally suggest that the total debt outstanding should be limited to \$100 per enplaned passenger.
- The willingness of investors in the bond market to purchase the Authority's indebtedness.
- Any negotiated bond sales are subject to the approval of the Comptroller of the State of New York and the Comptroller of the County of Albany.

The Authority also adopted a Derivatives Policy and a Variable Rate Debt Policy as summarized below.

Derivatives Policy

The Authority adopted a Derivatives Policy which allows for the use of Derivative Financial products for capital financing. The Derivatives Policy prohibits the use of Derivative Financial products for either investment or speculation. The Derivatives Policy recognizes derivatives as non-traditional financial products, including but not limited to, floating to fixed rate swaps, swaptions, caps, floors, collars and municipal warrants. The Derivatives Policy requires:

- that transactions entered into under the policy must be for a market transaction for which competing good faith quotations may be obtained at the discretion of the Authority and with the advice and recommendation of the Authority's swap advisor, and other financial professionals;
- that transactions should produce material economic benefit believed to not otherwise be attainable under the current existing market conditions, or existing conventional debt structures, and improve the flexibility of debt management strategies;
- employ a structure that will attempt to minimize any additional floating rate basis risk, tax law risk or credit risk to the Authority and justify the acceptance of these risks for a particular transaction, based on the additional benefits to the Authority; and
- limits the total amount of derivative financial product transactions so as not to exceed thirty-three percent (33%) of the total authorized debt limit of the Authority (currently \$285 million).

Variable Rate Debt Policy

The Authority adopted a Variable Rate Debt Policy which allows for the use of variable rate debt within prescribed limitations. The Variable Rate Debt Policy recognizes permanent and interim uses of variable rate debt. Interim use of variable rate debt may occur during the construction phase of a project for which the Authority intends to obtain permanent financing at the conclusion of the construction phase. The Variable Rate Debt Policy provides that:

- permanent variable rate debt exposure includes variable rate debt which the Authority does not intend to be refinanced by a long-term fixed rate debt;
- net permanent variable rate debt exposure is permanent variable rate debt that is not offset by the cash, cash equivalent and short-term investment assets of the Authority;

DEBT POLICY, continued

- net permanent variable rate debt excludes, with some exceptions, variable debt that has been synthetically changed to fixed rate debt by the use of a financial derivative hedge product with a fixed-payer interest rate swap;
- net permanent variable rate debt, excluding synthetic fixed rate transactions, should not generally exceed twenty percent (20%) of the Authority's outstanding indebtedness.

The Authority's policy is to manage its current and future debt service requirements to be in compliance with all bond covenants, while prudently meeting the capital needs of the Airport and to continue the pursuit of higher underlying ratings from the rating agencies.

MASTER and SUPPLEMENTAL BOND RESOLUTION

The Authority in 1995, as amended in 1997, established procedures for selection of underwriters for the sale of the Authority's bonds and for certain other matters. These procedures allow for public competitive sale, public negotiated sale or private negotiated sale of debt based upon a determination of the Chief Financial Officer and the recommendation of the Authority Chair.

In 1997 the Authority adopted a Master Bond Resolution which authorizes the issuance of Airport Revenue Bonds; prescribing the limitations on and the conditions of issuance and the form of any bonds to be issued. Two key provisions provide for an additional bonds test before the Authority issues any new debt and a covenant to maintain 125% debt service coverage of net revenues, as defined.

Since 1997, there have been sixteen supplemental resolutions.

DEBT OUTSTANDING

In August 2021, \$580,000 of Series 2017A (non-AMT) bonds were defeased. This transaction was completed to pay back bond funds that were used to refurbish the old Airport Administration offices that are now being occupied by a private entity.

At the beginning of 2023, it is anticipated there will be \$62,315,000 of debt outstanding. Principal payments of \$7,020,000 are due and payable during 2023. The chart below exhibits for each issue the original issue amounts, the debt to be outstanding as of December 31, 2023, the principal payments due in 2023, the interest due in 2023, the amortization of bond related receipts and expenditures that were deferred into interest costs in 2023 and the amount in debt service reserve funds.

Bond Series	Original Issue Amount	Outstanding 12-31-22	Principal Payments Due in 2023	Interest Payments Due in 2022	Total Payments Due in 2022	Outstanding 12-31-22

30 Series 2018A Revenue Bonds(Non-AMT)

Bond Series: Series 2018A Revenue Bond (Non-AMT)

Date: November 15, 2018

Payable: Principal is payable annually on December 15 with interest paid semiannually each June 15 and December 15.

Rating: Moody's: A3
(underlying) Sandard & Poor's: A

Purpose: The Series 2018A Bonds were issued to (i) finance \$15million of project costs in the Authority's 2015-2019 Five-Year Capital Plan (the "Capital Plan"), (ii) make the require deposit to the Bond Reserve Account for the Series 2018A Bonds, and (iii) to pay the costs of issuing the Series 2018A Bonds.

The Capital Plan approved by the County of Albany, as amended in 2017, includes the issuance of up to \$38.5 million in bonds to fund projects included in the plan. On August 14, 2018 the State of New York announced a \$92 million Albany International Airport Modernization Project (the "Project"). The Project includes an Airport Highway Access Project funded by the State at an estimated cost of \$50 million and a \$42.2 million Airport Modernization Project to which the State is contributing \$22.1 million in grant funding. The Authority intends to use \$14.1 million of the Series 2018A Bond Proceeds and other available funds to fund a portion of the Airport Modernization Project.

The Allbany International Airport Modernization Project includes:

1. Construction of a 1,000 unit, multi-level parking garage.
2. Energy-effiecient LED lights illuminating a bridge connecting the garage to the terminal.
3. Parking access improvements including lighting to highlight available parking spaces.
4. Terminal Projects that will include refurbishing the escalators, restrooms, waiting rooms and food courts.
5. The Authority will use \$900,000 of the Series 2018A Boind proceeds to fund other capital expenditures included in the Capital Plan.

Security: The bonds are secured by the full faith and credit of the Authority and are payable from general Airport revenues without limitation

Section 7 Capital Improvement Program

Capital Contributions

and

Capital Expenditures

FIVE-YEAR CAPITAL PROGRAMS

The enabling legislation creating the Authority (Chapter 686 of the Laws of 1993) sets forth in section 2784.3. (a) The following:

“On or before September first, nineteen hundred ninety-five, and on or before September first on every fifth year thereafter, the Authority shall submit to the county legislature a capital projects plan for the five year period commencing January first of the following year. The plan shall set goals and objectives for capital spending and describe each capital project proposed to be initiated in each of the years covered by the plan. Each plan shall also set forth an estimate of the amount of capital funding required each year and the expected sources of such funding.”

The first-five year capital program covering the years 1996 through 2000 totaling \$49,571,843 was approved by the Albany County Legislature, in Resolution 280, adopted on September 11, 1995. There was one amendment to the five year capital plan for \$6,605,319 approved in Resolution 251, adopted on July 13, 1998 which increased the total approved capital program to \$56,177,162.

The five-year capital plan for years 2000 through 2004 totaling \$232,400,000 was approved by the Authority on February 7, 2000 and the Albany County Legislature in Resolution No. 39-00, adopted on February 14, 2000. There was one amendment to the five year capital plan for \$26,000,000, approved in Resolution No. 180, adopted on April 14, 2003, increasing the total amount to \$258,400,000.

The five-year capital plan for the years 2005 through 2009 totaling \$264,900,000 was approved by the Authority May 3, 2004 and the Albany County Legislature in Resolution No. 400, adopted August 9, 2004.

The five-year capital plan for the years 2010 through 2014 totaling \$139,300,000 was approved by the Authority September 14, 2009 and the Albany County Legislature in Resolution No. 477, adopted December 7, 2009.

The five-year capital plan for years 2015 through 2019, totaling \$120,520,000, was approved by the Authority on September 22 2014 and by the Albany County Legislature in Resolution No. 411, adopted on November 10, 2010. An amendment to the five-year capital plan for \$22,000,000, approved in Resolution No. 167, adopted on May 7, 2017, increased the total amount to \$142,520,000. A second amendment to the 2015-2019 five-year capital plan is attached to this 2020 through 2024 five-year capital plan that decreases the plan by \$5.66 million to \$136.86 and reflects increased spending on projects that received more than previously anticipated levels of federal and state grant funding.

The five-year capital plan presented for the years 2020 through 2024 provides for potential projects totaling \$180,000,000. The projects included represent the Authority's estimate of the numerous potential airport developments which could occur during the next five years. The estimates are based upon the best case scenario for variable economic and aviation industry conditions during the five-year plan period. A description of each project is included herein. Some of these projects are contingent upon the future realization of currently potential increases in airport passenger traffic and/or airport tenant activities. Therefore, the actual initiation and projected timing for each project could be altered and the project may not actually be initiated during the five-year plan. Factors that could cause increases in activities at the Airport include introduction of one or more new commercial carriers, leasing property to new aeronautical tenants, and improvements in the regional and national economies.

The potential funding sources represent the Authority's current estimate of those projects which are eligible for federal funding and the related New York State share thereof. As of this date, the total amount of Federal entitlement or discretionary funding will be made available to the Authority during this five-year period is not known. The remaining projects, if they are initiated, will be funded by Authority resources, either from airport capital funds or from the issuance of Authority debt.

Many of the projects are dependent on future growth in passengers, cargo and general aviation usage of the Airport and the related support facilities and equipment needed to meet that growth. Also, many of these projects are dependent on their eligibility for available Federal and State funding, or on the ability of the Authority to issue indebtedness. The actual time for starting each project is dependent upon this growth and availability of funding.

FIVE-YEAR CAPITAL PROGRAMS, continued

The total effect any Capital Program will have on future operating budgets is evaluated at the time a specific project is authorized by the Authority to be started, unless a project is mandated for safety or health purposes. All other projects are undertaken based on a cost-benefit analysis.

CAPITAL DEVELOPMENT

The Airline Use and Lease Agreement, in place January 1, 2016, provides for annual capital expenditure.

The 2016 agreement provides initially for \$3,000,000 annually adjusted by the same percentage as the annual increase, or decrease, in non-airline revenues. Any amount not currently utilized is carried forward by the Authority for use in subsequent years. In the current Airline Use and Lease Agreement, the amount funded during 2016 was fixed at \$3.0 million, in subsequent years the amount will be increased by the percentage growth in non-airline revenues over airline revenues. In Budget 2022, \$2,838,616 is used for project capital funding.

Status: New Project

CIP Number: AIP-23-20-01

CIP Description: Building #101 Terminal Security Checkpoint Improvements

Category: 20 - Terminal

Environmental Required: Federal:
State:

Project Approved on ALP: NA

Airspace Status: Pending

Project Scope: Replacement of the existing bridge that connects the North Garage to the terminal building. The replacement bridge will provide _____ square feet of space that will allow the right-sizing of checkpoint queuing lanes and elimination of vertical and horizontal circulation pinch points at the terminal security entrance.

CIP Description: Building #303 (Air Traffic Control Tower) Improvements

Category: 35 - Landside

Environmental Required: Federal:
State:

Project Approved on ALP: NA

Airspace Status: Pending

Project Scope: Rehabilitate Building #303, Air Traffic Control Tower (ATCT), including the Terminal Radar Approach Control (TRACON) building adjacent to the ATCT. This rehabilitation includes replacement of roofs on the tower cab, penthouse, TRACON building, and connecting walkways; remove rubber tile floors and replace with vinyl; replace all exterior weather tight joints along the precast panels and other areas of the building; replace elevator and lighting fixtures with Energy-Star LED energy efficient equipment; repair and replace several doors, hardware, and frames; replace two boilers and associated system pumps; replace condensing units along with associated refrigerant piping; replace computer room air condition units (CRAC) in equipment room and TRACON building; provide electric heaters in tower stairwell; replace humidifiers throughout the facility and replace fire pumps.

CIP Number: PFC-22-10-01

CIP Description: Reconstruction Terminal Apron

Category: 10 - Airside

Environmental Required: Federal:
State:

Project Approved on ALP: NA

Airspace Status: Pending

Project Scope: This project will include design, construction management and the removal of approximately existing 677,794 square feet of existing asphalt pavement, removal of all sub standard areas of sub base material, cleaning and/or replacement of existing drainage pipe including under drains, proof rolling of sub grade, placement and compaction of all newly installed P-209 and placement of P-401 B & S materials in lifts. This project will also include joint sealing, striping and site restoration including topsoil, seed and mulching. This will be a complicated phased project to insure that all airline operations are maintained throughout the duration of the proposed project. This project is eligible pursuant to 158.15(a)(1) and will enhance safety at the airport and for the national air transportation system.

CIP Number: PFC-22-10-05

CIP Description: PFC Administration

Category: 10 - Airside

Environmental Required: Federal:
State:

Project Approved on ALP: NA

Airspace Status: NA

Project Scope: The project includes necessary costs associated with the administration of the proposed PFC program at ALB. The project includes collections monitoring, the completion of annual audits, and quarterly reports through December. This project also includes the necessary preparations for new PFC applications and the close-outs of existing open PFC applications. New application costs include those costs associated with the air carrier consultation information packages, FAA informal review information packages, the ultimate PFC Application document for submittal to the FAA and notification to air carriers of FAA approval of PFC Application as mandated by Part 158.43 and to begin collecting PFCs. This project is eligible pursuant to 158.15(a) (1) and will preserve safety at the airport and for the national air transportation system.

CIP Number: 21-30-17

CIP Description: Building #301 & Building #302 Roof Repair

Category: 30 - Landside

Environmental Required: Federal: na
State: SEQR Type II

Project Approved on ALP: NA

Airspace Status: Pending

Project Scope: The existing roofs on Buildings #301 and #302 are beyond 25 years old and have required repairs for leaks and wind damage. The existing roof systems will be removed including the insulation. New insulation and a new rubber membrane roof will be installed on each building.

Project was previously budgeted in 2021.

Project was previously budgeted in 2022

CIP Description: Building #109, Million Air Roof Repair

Category: 30 - Landside

Environmental Required: Federal: na
State: SEQR Type II

Project Scope: The existing roof of Building \$109, Million Air Hangar, is over 25 years old and has been requiring constant costly repairs for leaks. The project will require the removal of the existing ballast roof and insulation. The installation of new insulation (to meet new energy codes) and a TPO roof membrane system with a 20 year warranty.

Project was previously budgeted in 2021.

Project was previously budgeted in 2022

Section 8 Rates and Charges

AIRLINES RATES AND CHARGES SUMMARY

The Airline Use and Lease Agreement (ULA) that began on January 1, 2016 continues to recognize that the Airlines and the Authority are working together to provide adequate facilities at the Airport and to provide appropriate accommodations for the public using the Airport without creating an unreasonable financial burden on the airlines or the Authority. This goal is achieved through a “revenue sharing” relationship in which both the signatory airlines and the Authority “share” in the successful financial performance of the Airport. This ULA had a five year term with an expiration date of December 31, 2020, and included one five year option period. Due to the COVID-19 pandemic that began in March 2020, this five year renewal term was modified to a three one-year renewal terms (2021, 2022, 2023) followed by one two-year (2024-2025) option term⁴³.

The revenue sharing formula in the Airline Use and Lease Agreement includes the following key elements:

A residual landing fee rate for the airfield cost center using passenger airline and cargo carrier landed weight as a divisor. Certain revenue items are credited in the rate calculation to lower the overall requirement of the airfield. Included among those offsets are interest earnings, FBO commercial net revenues and all revenues from non-signatory airlines.

An aircraft apron fee rate is based upon ten percent of the total landing fee requirement; divided by number of total square foot of apron space.

A commercial compensatory terminal rental rate for the terminal cost center, using rentable square feet as the divisor. Space occupied by the airlines or other tenants is paid for directly by a terminal rental charge.

A loading bridge fee charge is implemented based on annual capital charges, capital charge coverage, any required reserves, and operating and maintenance expenses incurred.

A formula for revenue sharing at 50/50 with the signatory airlines based on remaining Airport funds in excess of the total requirements of all cost centers. The signatory airlines’ share is credited back to airlines in the subsequent year.

COST CENTERS AND ALLOCATIONS

The expense budget under the New Agreement includes seven direct cost centers (airfield, terminal, loading bridges, parking, landside, FBO commercial aviation, and FBO general aviation and facilities) and seven indirect costs centers (ARFF, operations, security, vehicle/equipment maintenance, AvPorts administration, Million Air administration, and Authority administration). The expenses for four of the indirect costs centers (which exclude administration) are allocated to the direct costs centers based on an analysis of the staff hours worked and the budgeted costs within each indirect cost center. After those indirect costs are allocated to the direct cost centers, administration is allocated based on the total actual direct and indirect costs for each direct cost center. The allocation percentages for 2022 are set forth in the operating expenses allocation summary the Budget Overview section. The allocation rates will be reviewed and potentially revised at the end of 2021 to reflect the actual operations and maintenance for all of the facilities.

NON-SIGNATORY RATES - Airlines that are not signatory to the Agreement are charged the lesser of the compensatory rate for the airfield or 1.25 times the signatory rate

PER USE TERMINAL FEE - Low-Volume Air Carriers that are not signatory will be charged a per use terminal fee. The Per Use Terminal Fee shall be calculated by dividing the sum of the estimated total annual aircraft apron Fees, terminal rentals and equipment charges, by the total number of enplaned passengers at the Airport in the preceding year, and multiplying that quotient by one hundred twenty-five percent (125%).

AIRLINES RATES AND CHARGES SUMMARY, continued

REVENUE SHARING - Over the five year term (2016-2020), with extensions, of the Airline Use and Lease Agreement, 50% of all Airport revenues in excess of the total requirements of all cost centers in each fiscal year is "transferred" as a credit.

COST PER ENPLANEMENT - One measure of the total revenues received by the Authority from the airlines is the Airport cost per enplanement (CPE). The CPE is presented with two components.

The Airport CPE represents the net cost incurred by the commercial airlines based on their regular operations at the Airport.

The FBO CPE represents the additional cost incurred by the airlines for into-plane, fuel farm, and deicing services; services usually provided by fixed based operators but at Albany International Airport are provided by the Authority.

RATES and CHARGES SUMMARY

	Audited 2021	Budget 2022	Projected 2022	Budget 2023	Budget 2023 vs Budget 2022
Landing Fee Rate					
Signatory	\$ 3.15	\$ 3.53	\$ 3.65	\$ 4.18	18.4%
Non-Signatory	\$ 3.94	\$ 4.41	\$ 4.56	\$ 5.23	18.4%

CAPITAL DEVELOPMENTS BY THE AUTHORITY

On July 17, 1996, ground was broken for construction of a new air-cargo building in the northeast quadrant of the airport as the first step in consolidating the present and developing the future air-cargo capacity for the Airport. The \$11 million cargo facility and related airfield and landside improvements were financed by Airport Revenue Bonds. This facility opened in October 1998 and is under a long-term lease agreement with Aviation Facilities Company, Inc. (AFCO).

On October 3, 1996, ground was broken for the Terminal Improvement Project (TIP). The TIP consisted of a new terminal and other facilities to replace the 1959 terminal and was designed to accommodate future demands for approximately 1.5 million annual enplanements. The TIP was substantially complete on October 1, 1998.

In February 1997, the Authority issued \$96,305,000 of Airport Revenue Bonds to finance the TIP and certain capital improvement projects initiated by the County prior to the creation of the Authority.

In December 1997, the Dormitory Authority of the State of New York issued \$41,395,000 of State Service Contract Revenue Bonds for the purposes of financing, construction, reconstruction, improvements, reconditioning and preservation of the Airport or aviation capital projects at the Airport. The Revenue Bonds were secured by a service contract under which the State of New York agreed to pay the annual principal and interest payments. The Revenue Bonds are not debt of the Airport Authority nor is the Airport Authority liable thereon.

Proceeds totaling \$40 million were used by the Authority toward the cost of constructing the new terminal building, a connecting bridge and a parking garage at the Airport. The Authority allocated \$20 million each towards the cost of the terminal and the garage.

The Authority maintains a Federal Inspection Station to process regular scheduled international flights together with other general aviation and international cargo flights.

On June 7, 1998, airline operations began in the new terminal facility and demolition began on the 1959 structure.

In July 1998, the Authority, through the New York State Environmental Facilities Corporation (EFC) received \$7.5 million Series A bonds to finance the total construction of a new glycol wastewater treatment system. In July 1999, the loan was replaced by \$7,895,303 bonds issued by the EFC with interest on the first \$3 million 100% subsidized and the remaining \$4.5 million 50% subsidized by the New York State Water Pollution Control Revolving Fund.

On December 1, 1998, the Authority sold two Airport Revenue Bond issues totaling \$30,695,000 to finance two capital projects:

The 1998 B (non-AMT) issue totaling \$18,455,000 was sold to finance in part the construction of a new 1,600-space parking garage. The garage partially opened in December 1998 for use by short-term visitors to the Airport and the balance used for long-term parking was opened in February 1999.

The 1998 C (AMT) issue totaling \$12,240,000 was sold to finance the construction of the new 50,500 square foot air cargo building which was opened during October 1998 for use by Airborne Express, Federal Express and United Parcel Service.

In March 1999, operations began in the newly constructed air traffic control tower located in the northeast quadrant of the airport. Demolition also began on the old control tower to provide additional apron area for use by the airlines.

In April 2000, construction was completed for the addition of approximately 16,000 square feet of terminal space including ticketing, baggage make up and hold rooms to accommodate the arrival of Southwest Airlines which began service May 7, 2000. This addition was principally financed through the receipt of a \$6 million grant from the State of New York.

In May 2000, construction of 874 space remote surface parking lot was completed at the southeast quadrant of airport property to accommodate the additional parking required by the increase in enplanements as a result of the addition of Southwest Airlines.

In July 2000, the Authority, through the EFC, entered into a ten year \$2,374,936 Series B loan agreement

CAPITAL DEVELOPMENTS BY THE AUTHORITY, cont.

with the New York State Water Pollution Control Revolving Fund to finance the construction of a glycol filtration polishing facility. The interest thereon is fifty percent subsidized by the New York State Water Pollution Control Revolving Fund.

In November 2000, a parking garage expansion was opened to accommodate 307 parking spaces for the rental car operators and 400 additional spaces for public parking.

In December 2000, the Authority issued \$14,500,000 of Airport Revenue Bonds to finance the construction that began in 2001 of a New York State Police Executive Hangar to consolidate the State's current aircraft and maintenance support facilities, which were located in two widely separated hangars on the airfield. The new facility completed in 2002 consists of approximately 84,630 square feet of hangar, maintenance support, office space, and includes all the necessary mechanical, electrical, plumbing, fire, security, and energy management systems; crane and hoist equipment and other support equipment for aircraft maintenance; and office furnishings. Landscaping, parking lot, and security fence to secure the leased area also were provided. The Authority and the Division of New York State Police entered into a thirty (30) year Land and Facility Lease Agreement effective April 1, 2000. These Airport revenue payments are sufficient to amortize the debt service payments for this Bond issue plus any other related costs incurred by the Authority.

In 2001, the Authority began construction of a new ARFF facility and general aviation T-Hangars.

In 2001, the Authority also obtained final FAA and all other required approvals for the extension of Runway 10-28 from 6,000 to 7,200 feet. Construction began in 2002. This project also included extending taxiway "C" and related hold apron and service road improvements. The runway was completed and opened in August 2003.

In July 2001, the Authority acquired a 9½ acre Industrial Park with four warehouse type buildings totaling 27,500 square feet. In 2002, renovations were completed and the ground support facilities for American Airlines, US Airways, plus Lansing Flight Support were relocated from the old belly-freight building. In addition, KME Fire Apparatus leased one building to which

an addition was added to support their requirements.

In 2002, construction was completed on a 10-bay T-Hangar facility, a self-service fueling facility, and a neighboring tie-down area for use by the general aviation community. Construction began on a second T-Hangar building to provide 10 more T-Hangar units. This construction was completed in 2003. All units are leased.

An extension to the remote parking lot "E" began in 2002 which will nearly double the capacity to 2,000 plus public parking spaces. As a result of several adjoining land acquisitions, expansion work continued into 2004.

During 2003, the Airport received Federal support for the complete rehabilitation of the primary runway 1-19 including the complete replacement of centerline lighting. The work was completed in 2003. Also during 2003, the Airport received all necessary approvals to begin extension of the primary runway 1-19 from 7,200 to 8,500 feet. The work was completed in 2006.

During 2003, the Authority was granted \$2.3 million of State funds through the support of State Senator Joseph Bruno to acquire and install two over-the-wing loading bridges for Southwest Airlines. Albany International Airport was the first airport in the United States to have two such bridges in operation.

In June 2003, the Authority sold \$8,855,000 of Series 2003A Airport Revenue Bonds to pay the costs of various land, hangars and equipment acquisitions, apron and runway expansions, taxiway, runway and hangar rehabilitations, certain terminal expansions, and leasehold improvements.

In March 2004, the Authority, through the NYS EFC, issued \$388,316 of Airport Revenue Bonds to finance the construction of sanitary sewer and water improvements in the Airport Industrial Park.

Other major projects completed in 2004 included finalizing renovations to the terminal to accommodate TSA security personnel and to provide space for their passenger screening and baggage inspection operations. Construction started in 2004 on the main Runway 1-19 extension from 7,200 to 8,500 feet and was completed in 2006 together with related navigation aids and taxiways. Remote parking was expanded by

CAPITAL DEVELOPMENTS BY THE AUTHORITY, cont.

approximately 700 additional spaces to accommodate an ever-increasing demand for on-airport parking. Also a new US Postal facility was opened.

In 2005, the Authority acquired the on-airport assets of the former FBO (\$3.0 million). With this acquisition the Authority assumed responsibility for managing and operating the FBO. The Authority operates the FBO under the franchise trade name "Million Air". That same year the Authority also acquired an office building and two warehouses for lease and 400 additional remote surface parking spaces (\$2.4 million). Also in 2005, the Authority completed a \$2.8 million aircraft engine run-up attenuation facility to enhance the containment of noise from the Airport.

In June 2006, the Authority issued \$14,230,000 of bonds to provide funds for various land, hangar, equipment acquisitions, hangar rehabilitations, certain terminal renovations, utility improvements, and parking expansions.

In December 2006, the Authority issued \$6,330,000 of bonds to provide funds for construction of the 42,800 square foot Aviation Service and Maintenance Facility which was completed in late 2007.

In 2008 the Authority completed construction of two general aviation T-Hangars, installation of two additional escalators in the terminal and installation of new touch down lighting improvements that preserve and enhance aeronautical safety during nighttime, low-visibility, winter and other inclement weather conditions for all aircraft operations by allowing landing with half-mile rather than three-quarter mile visibility conditions.

During 2009 the Authority continued the Latham Water Towers Runway 10-28 obstruction relocation. The Authority also undertook a rehabilitation of an existing hangar, lighting energy upgrades in the parking garage, and several smaller projects involving roof replacement, terminal improvements and improvements in landside buildings.

In 2010 major renovations of six terminal food and beverage concession areas that began in 2009 were completed at a cost of approximately \$3.0 million which was fully funded by the concessionaire. Replacement of all parking garage lighting with more energy efficient lights at a cost of \$156,000 was com

pleted with the aid of a \$54,300 grant. Rehabilitation of the taxiways and ramps for \$2,826,000; construction of a new entry and exit to the remote parking lot providing for additional and interstate highway access at a cost of \$363,300; expansion of glycol storage and replacement of the Type I glycol proportioning system at an estimated total design and construction cost of \$339,000.

Projects completed in 2011 include a parking garage rehabilitation project at a cost of \$896,000, a passenger jet bridge replacement project with a cost of \$581,000, an automated entry and exit station in the economy parking lot at a cost of \$336,274 the relocation and upgrade of the Authority operated retail store (DepARTures) in the Terminal at a cost of \$281,000.

The completion of the Runway 28 obstruction removal, which involved relocation of a municipal water tank at a cost of \$11,187,000 was completed in 2012. Other projects completed in 2012 included the Terminal Floor replacement at a cost of \$821,400 and a Semi-inline Baggage Screening Project with a cost of \$1.1 million.

During 2013 projects completed included Glycol Storage & Processing Improvements to add a new 2.5 million gallon storage tank. During 2013 a project to upgrade the Electrical Vault at a cost of \$1.3 million was advanced along with the rehabilitation of the Administration Building (\$1.7 million).

In 2014 construction began to add a new Runway Friction Material Building at a cost of \$2.4 million; upgrade of an existing commercial Aircraft Maintenance, Repair and Overhaul Facility; construct a new hangar at a cost of \$4.3 million and Rehabilitate Runway 1-19 at a cost of \$4.72 million. These projects were completed by the close of 2015.

During the 2009-2014 Capital Plan the Authority also purchased approximately \$5 million in major equipment including items such as two fire trucks, runway snow blowers, runway brooms, shuttle busses, street sweepers, and other heavy equipment.

During 2015 projects to provide a new terminal roof at a cost of \$1.5 million and the Terminal Baggage Room Renovation at \$1.5 and Glycol Storage and Processing improvements for \$1.1 million were initiated then

CAPITAL DEVELOPMENTS BY THE AUTHORITY, cont.

completed in 2016.

During 2016 a \$3.4 million passenger loading bridge replacement and renovation project and \$1.4 million Fiber Optic replacement project were initiated.

During 2017 a \$3.4 million passenger loading bridge replacement and renovation project and \$1.4 million Fiber Optic replacement project were completed. Also in 2017 a \$4.4 million Runway 01-19 Edge Light Lighting System Replacement and a \$4.2 million phase 2 passenger loading bridge replacements and renovation were initiated.

During 2018 the Airport started a \$1.9 million escalator replacement project in the Terminal and authorized another \$1.0 million passenger loading bridge replacement and numerous smaller projects under \$1.0 million.

Most significantly in 2018 the Airport was awarded a \$22.1 million grant to provide a portion of the funds for a \$42.2 million project to build an additional parking garage, improve parking access, provide terminal rehabilitation and add other passenger amenities. The grant was awarded in conjunction with a \$50 million State-funded Airport highway access project announcement. The new Highway access will be very beneficial for the Airport access to on-airport parking operations.

As of December 31, 2018, the Authority maintained \$538.3 million in capital assets for which \$271.0 million in accumulated depreciation was recorded resulting in \$267.3 million in capital assets net of depreciation. Also at December 31, 2017 the Authority had approximately \$94.2 million of outstanding debt related to these capital assets, which resulted in the Authority reporting \$143.1 million of capital assets net of related debt.

Although most of 2019 was consumed with the construction of the parking garage and the rehabilitation of the airport terminal, there were other airport improvement projects. These included the installation of LED edge lighting for the full length of Runway 1/19 and Taxiway C. Also 2019 included the installation of new full hangar door at the FBO hangar.

As of December 31, 2021, the four (4) passenger boarding bridges have been replaced, and the Airport's first Master Plan in over twenty Years has begun. In addition to these the Taxiway A Rehabilitation project will be essentially completed.

As of December 31, 2022 the Airport Pavement Management Program, and Terminal Fire Alarm Replacement, Hangar 1 Sprinkler, and the Taxiway A projects have all been completed. Also in 2022, Parking Lot C was reverted back into an aircraft apron.

GLOSSARY

Accrual Basis - Basis of accounting which attempts to record financial transactions in the period they actually occur rather than the period paid or received.

Administrative Expenses - One of the main expense categories and includes the following: memberships, subscriptions, travel, education, and economic development.

Aircraft Operation - Considered either a landing or take-off of an aircraft.

Airfield Operations Area (AOA) - Generally considered the restricted area within the security fence surrounding an airport which is reserved for aircraft and related operations. This includes the landing area and ramp area, and other facilities supporting the activity of military, general aviation and commercial aircraft.

Airfield Revenues - One of six operating revenue categories which include landing fees, glycol disposal fees, apron fee, and the control tower rental fees.

Airline Use and Lease Agreement (Agreement) - An agreement with one or more airlines setting forth the rights of the airlines for their use of the airport and the rates and charges they will pay.

Airline Revenues - Landing fee revenues, loading bridge revenues, apron fees, and terminal rental revenues.

Airport Revenue Bonds - Bonds payable from Airport revenues which do not pledge the full faith and credit of the issuer.

Airport Security Plan (ASP) – A federal requirement for security at the Airport.

Ambassador Program – A program comprised of volunteers that are tasked with providing excellent customer service through offering friendly and accurate assistance about airport services and facilities, as well as offering flight assistance and tourism information in a friendly and welcoming manner that meets and exceeds passenger and visitor expectations.

Apron - A section of the ramp area closest to the terminal building used for parking of aircraft and support vehicles used for loading and unloading of aircraft.

ARFF - Airport Rescue and Fire Fighting, the on-airport unit responsible for airfield emergencies and fire fighting.

Authority - Albany County Airport Authority, a body corporate and politic, constituting a public benefit corporation established and existing pursuant to the Albany County Airport Act enacted by Chapter 686 of the laws of 1993 and set forth in Title 32 of the New York Public Authorities Law.

Automated External Defibrillator (AED) - A portable automatic device used to restore normal heart rhythm to people who are in cardiac arrest.

Biochemical Oxygen Demand or Biological Oxygen Demand (BOD) A chemical procedure for determining how fast biological organisms use up oxygen in a body of water. It is used in water quality management and assessment, ecology and environmental science. BOD is not an accurate quantitative test, although it could be considered as an indication of the quality of a water source. BOD can be used as a gauge of the effectiveness of wastewater treatment plants.

Cargo - Anything other than passengers, carried for hire, including both mail and freight.

Capital Improvement Program (CIP) - A five year program for regularly undertaking improvements to maintain or revitalize the infrastructure and facilities of the airport. The program serves as a basis for determining funding requirements and other operational planning decisions.

C Index - FAA regulation that dictates a certain number of vehicles to maintain the Airport.

COLA - Cost of living adjustment

Concessionaire - A person or company having a lease, contract or operating permit arrangement with the Authority entitling them to do business on the airport.

Concession Revenue - One of six operating revenue categories which include terminal concessions, advertising, and the business center.

Cost Centers - Functional areas or activities of the Airport grouped together for the purpose of accounting for expenses.

Glossary, continued

Cost Per Enplanement (CPE) - A unit of measurement used to present the airlines' cost of each enplaned passenger. The total airline revenues paid to the airport are divided by the number of passenger enplanements to calculate the cost per enplanement.

County - County of Albany, home of the City of Albany; the state capital of New York.

Disadvantaged Business Enterprise Program (DBE) – Program required by Congress as a condition of receiving federal funds.

Debt Service - The amount required for the accrual and payment of principal, interest, and premiums, if any, and other fees and amounts associated with all series of Bonds and Indebtedness, as set forth in any Resolution(s) or other financing documents(s) of the County or Authority.

Debt Service Coverage - An amount equal to Airport Net Revenues divided by Net Debt Service.

Debt Service Reserve Fund - Any fund(s) established by the Authority for monies necessary to satisfy any Debt Service Reserve Requirement established in any Resolution(s) or other financing document(s) of the County or Authority generally equal to the highest annual amount due in the remaining years of the debt issue.

Debt Service Reserve Requirement - Requirement, if any, for the Debt Service Reserve Funds for all series of Bonds or other indebtedness.

Deplanement - A passenger departing an aircraft at the Albany International Airport.

Enplanement - A paid passenger boarding an aircraft at the Albany International Airport.

Federal Aviation Administration (FAA) - The government agency responsible for air safety and operation of the air traffic control system.

FAA Regulation Part 139 - This regulation establishes the requirement for airports servicing scheduled air carrier operations in aircraft with 10–30 seats and provides airport certification status, class and ARFF Index to assist air carriers.

FAA Regulation Part 150 - This regulation establishes a uniform nationwide system of describing aircraft noise and noise exposure on different communities, describes land-use compatibility for the guidance of local communities, and provides technical assistance to airport operators and other governmental agencies to prepare and execute noise compatibility planning.

Federal Inspection Station Facility (FIS) - The facility used as the Federal Inspection Station for United States Customs and Immigration.

Fixed Base Operator (FBO) - A fixed based operator provides aircraft fueling, deicing and maintenance for the general aviation customers.

FBO Revenue - One of six operating revenue categories which include the sale of fuel for aircrafts, landing fees for the general aviation population, deicing of aircrafts, and other miscellaneous fees for the general aviation population.

Fuel Farm - Operated by Million Air and used to store fuel for the airlines and retail general aviation sales.

GAAP - General Accepted Accounting Principals are uniform minimum standards and guidelines for accounting and financial statement reporting.

GASB - Governmental Accounting Standards Board, the body responsible for establishing GAAP for governmental entities.

Glycol Containment System - The system designed to contain and transfer all snow and rain contaminated by Propylene Glycol used to deice an aircraft during the winter season.

Ground Transportation Revenues - One of six operating revenue categories which includes airport parking revenues and access fees from limousines, hotels/motels, taxis, and off airport parking facilities.

International Passengers - Passengers flying into or out of Albany International Airport with an origin or destination outside the 50 states and all U.S. territories.

Into-plane Fees – Revenue generated based on fuel pumped for the commercial airlines.

Glossary, continued

Landing Fee Revenues - Revenues collected from commercial aircraft landings.

Loading Bridge - Equipment used to board and deplane passengers between the terminal building and the aircraft.

Low-Volume Air Carrier - A Non-Signatory Airline with seven or fewer scheduled revenue flights departing from the Airport with an aggregate of no more than 700 departing passenger seats each calendar week.

Materials and Supplies Expense - One of the main expense categories which include materials and supplies purchased for airfield, ARFF, FBO, buildings, grounds, and vehicles and equipment.

Maximum Gross Landed Weight (MGLW) - Actual gross weight of a particular plane. The weights for all aircraft are published by the FAA.

National Air Transportation Association (NATA) - Organization that promotes safety and the success of aviation service businesses through its advocacy efforts before government, the media and the public as well as providing valuable programs and forums to further its members prosperity.

Non-Capital Equipment - Equipment, under \$50,000, not covered under the Capital Improvement Program, included within the operating budget.

Non-Signatory Airline - An airline or carrier who did not execute the airline use and lease agreement with the Authority.

Non-Operating Revenues - Revenues which are generated from passenger facility charges, improvement charges and interest income.

Occupational Safety and Health Administration (OSHA) Reportable Incidents – An incident is reportable if it meets any of the following criteria: fatality, hospitalization, amputation and/or loss of an eye.

Office Expense - One of the main expenses that includes office equipment rental, agreements, and repairs; computer system support, maintenance, and agreements; office furniture and fixtures; and other supplies required to run normal activity in the administrative offices.

Operating Revenue - Revenues which are generated from the daily operations of the airport which include the revenues from Airfield, Fixed Based Operator, Terminal, Ground Transportation, Concessions and Other Airport.

Other Airport Revenue - One of the six operating revenue categories which include land and building rental of off-airport property owned by the airport, T hangar and tie down rentals, utilities and miscellaneous items.

Operating and Maintenance Reserve Requirement - The requirement of the Resolution(s) and other finance document(s) of the Authority that a reserve can be created and maintained sufficient to pay not less than two months of budgeted operating and maintenance expenses.

Over- the-Wing (OTW) - The loading bridge attaches to the rear door of the plane over the wing of the plane to enplane passengers.

Passenger Facility Charges (PFC) - A \$4.50 per passenger surcharge collected by the airlines and forwarded to the Authority to pay for Airport capital projects or to be applied to the Airport's required debt service payments as approved by the Federal Aviation Administration.

Personnel Services - One of the main expense categories which includes all wages, salaries and benefits.

Per Use Terminal Fee - A fee paid by a Low-Volume Carrier for use of the Airport Apron, Terminal and Equipment as provided for in the Signatory Airline Agreement.

Purchased Services - One of the main expense categories which include services purchased for accounting and auditing, insurance, legal, security, refuse removal, public relations, art exhibits, museum shop, advertising, passenger information booth, special studies, engineering services, professional management and code enforcement.

Glossary, continued

Revenue Per Enplanement (RPE) - A unit of measurement calculated by taking certain airport revenues divided by the number of enplanements.

Signatory Airline - An airline that has executed an agreement with the Authority and is charged fees in accordance with the Airline Use and Lease Agreement.

Terminal Revenue - One of the six operating revenue categories which includes rental of the terminal space, loading bridge rentals, tenant maintenance, and utilities.

Transportation Security Agency (TSA) – The Department of Homeland Security responsible for protecting the Nation's transportation systems (including airports) to ensure freedom of movement for people and commerce.

Utilities and Communications - One of the major expense categories which include electricity, fuel, sewer, water, telephone, internet, radio communications, paging services, and cable television.

HISTORY OF THE AIRPORT

Albany Airport, *America's First Municipal Airport* consisted of an airfield developed in 1909 along the Hudson River on what is now known as Westerlo Island, in the southeastern portion of the City of Albany. At one time, the airport was named Quentin Roosevelt Field in memory of President Theodore Roosevelt's son, Quentin, who was killed while flying in France during World War I.

The airport played an integral role in the early history of American aviation when Glen H. Curtiss flew from Albany to New York City on May 29, 1910. This achievement, which was the first sustained flight between two major American cities, opened the way to airmail and passenger flights, and thus the establishment of commercial aviation in this country. It is noteworthy that Charles Lindbergh landed his *Spirit of St. Louis* at Quentin Roosevelt Field on July 27, 1927 following his completion of the first nonstop solo flight from New York to Paris.

Shortly before Lindbergh's landing at Albany, plans were being considered to relocate the airfield to land owned by the Watervliet Shakers in what is now the Town of Colonie. Eventually, the Airport was moved to its current location and officially opened as Albany Municipal Airport on October 1, 1928, giving it the distinction of being America's first municipal airport. Albany Municipal Airport was owned and operated by the City of Albany until 1960. At that time, the city determined that it could no longer afford to finance the airport, and ultimately sold the facility to Albany County for \$4,437,000. The County embarked on the construction of a terminal building in 1959. The terminal opened in 1962 and was regarded as the beginning of a new era for the airport.

Construction of a second terminal building, offering the first enclosed jet ways at the Airport, was started in 1979 and completed in 1982; as was the last of several runway extensions which lengthened the original 3,000 foot and 4,000 foot runways to 6,000 and 7,200 feet, respectively. The airport then was able to routinely handle large aircraft including 727s, 737s, and DC-9s. Through the years many presidents, either as candidates or in office, have visited Albany Airport. These include Franklin D. Roosevelt, John F. Kennedy, Richard Nixon, William J. Clinton, and Barack H. Obama. In November 1994, and September 2009, 2011 and 2012 the President of the United States visited Albany traveling on Air Force I, a 747 aircraft.

The progressive growth and development of Albany County Airport has also been evidenced by the number of airlines operating out of Albany. When the main terminal opened in the early 1960s, the airport was served by only four carriers. Over the next 35 years, passenger levels increased from 400,000 in 1964 to over 2.1 million in 1994. In 1994, Albany was served by eight commercial airlines and six commuter carriers. Currently Albany is served by five commercial airlines and 17 commuter carriers.

ALBANY AIRPORT AUTHORITY CREATED

The Authority was created in 1993 pursuant to the Albany County Airport Authority Act, Title 8, as amended, of the State of New York Public Authorities Law (Act). The County of Albany (County) and the Authority entered into a permanent Airport Lease Agreement dated December 5, 1995, which became effective May 16, 1996 following approval by the Federal Aviation Administration (FAA) for the transfer of the sponsorship of the Airport from the County to the Authority. Under the lease agreement, for a term expiring December 31, 2049, the County leases to the Authority the Airport, including all lands, buildings, structures, and easements, right of access, and all other privileges and appurtenances pertaining to the Airport. The Airport is a body corporate and politic constituting a public benefit corporation established and existing pursuant to the Act. The State created the Authority in order to promote the strengthening of and improvements to the Airport and to facilitate the financing and construction of the initial Terminal Improvement Project (TIP), other subsequent capital improvement plans, and give the Authority the power to operate, maintain and improve the Airport.

On March 15, 1994, the County transferred net assets equal to \$46,824,500 from the County to the Authority.

In March 1998 the airport was renamed the Albany International Airport in recognition of past and projected increased activity at the airport and to recognize the presence of the Federal Inspection Services operated by the U.S. Customs and Border Protection Agency.

Under a subsequent amendment to the Agreement dated June 29, 2005, the Authority leases two additional parcels totaling approximately 3.4 acres that the Authority developed for additional parking. The Authority paid the County as of that date \$478,500 as consideration.
